## Let The Games Begin

On September 11, 1984, the 1984-85 school year at Warren was declared officially open. Along with the beginning of the school year came the beginning of the "Games Bears Play." Before us lay a year filled with games for all ages. Childish games lead to maturity. From "house" to "doctor" it is all a

process of learning. As a matter of Trivial Pursuit we attend school. Our extra-curricular activities model "spin the bottle" with a round of Monopoly to prepare us for the future. As another and perhaps final year wraps up, some of us throw the dice for the last time. We may end up "King of craps"

or perhaps spend our lives playing "fish". "War" is a game of no winners. The responsibility lies with us Bears not to start that game. An all too high percentage of us Bears will spend our lives playing a never ending round of Russian roulette — never knowing which round will be our last.

We Bears play jovial games as well. Hide and go seek from the boy in biology seems to be a popular one (often called the dating game). Ring around the rosey is a favorite game of our Homecoming Court.

# Student Life

*Student life means the way a student lives in and out of school. If a list of activities that students do to enjoy themselves was made it would go on forever because everyone would have something to add. This is because we are each different and enjoy different things.*

*A student's favorite school day is Friday for many reasons. The week-end is hours away and we discuss our plans with our friends. A football game, dancing, or watching T.V. at a friend's are just some of the ways that students spend their Friday and Saturday nights. During the day a person can do countless things to relax from the pressures of school. Shopping, going out to eat, or even going to a baseball game are just some ways that students enjoy life out of school.*

*Everyone enjoys school because it does not just consist of six classes. There are many activities that go on here at Warren to help raise the spirit of the students here on campus. Student clean-up, Downey/Warren week, Halloween dress-up, and student elections are just a few of the main activities aimed at getting students involved in their school and taking pride in it. The variety of people here at Warren is what helps this to work. There are people who get very involved and some who just like to sit back and watch.*

*Everyone enjoys high school life because it is the time when we look forward to our future but enjoy the present. This is done with the help of our friends and our school.*

## First King Crowned

As part of the 1984-85 Homecoming festivities the Bears decided to establish a new tradition as part of the traditional crowning of the Queen — crowning a King. Since the halftime activities of the game are taken up with the announcement of the Queen from the Senior princess candidates, David Brooks was crowned during the special Homecoming Assembly during the day. He is the very first Homecoming King. Halftime at the game was as filled with emotion as past crownings have been. The princesses were escorted to the dias by their fathers and then the Senior princesses agonized waiting the important moment — who was going to be the 1985 Homecoming Queen? The moment arrived and Julie Hammon learned that she was to be the lucky one. Both she and David have a very special day to remember — Homecoming 1984-85.

# Couples Match Up

*This year Homecoming snuck up on us and was gone in a flash. Around the first of October was when the guys started to ask the girls to be their dates for the dance. When the night finally came everyone was excited and ready to have fun. Homecoming this year was held in the Britannia Room on the Queen Mary in Long Beach on the night of November 3 from 8pm-12am. Decorated with lavender, pink, and silver balloons, it was a night filled with fun and excitement. It was well worth the wait and expense. Many couples rented limosines with other couples and went out to dinner together then went to the dance. At the dance the first thing anyone did was get their picture taken and then go dance. Everyone looked radiant that night. The girls with their frilly lace dresses and the guys with their tuxedos, bow ties, and cummerbunds. All the couples matched their dates perfectly with the same shades of color — her dress with his bow tie and cummerbund. When the clock struck twelve midnight most of the couples didn't want the night to end just then, so they rented rooms at the Hyatt Regency across the street from the Queen Mary and had a bunch of after-Homecoming parties. It was really a very spectacular event and certainly "An Unforgettable Night."*

# Dorks Make Day

The Downey/Warren week was a big success this year. Everyone was really in the school spirit. For the Downey/Warren week we had Downey Dork Day, which is when the students dress up like a Downey High School student; for example they wear their pants on backwards, different colored socks and different colored shoes etc. Joyotsna Patel said that it was really funny to see everyone dress up like a Downey Dork. Hawaiian Day which is when people at school dress up in a Hawaiian outfit, such as Hawaiian shirts, Hawaiian skirts, leis, and pants etc. Sports Day was when they dressed up as a particular sport. Julie Lincks said that it was really enjoyable to see everyone dress up and represent their particular sport of their choice. She also said that everyone really had school spirit. Blue and Gold Day was when everyone dressed up in the school's colors, which was blue and gold to represent our school. Everyone did a great job in participating. We were especially proud of our football players for doing such a good job in defeating Downey Friday night (October 28, 1984). The score was 14-13.

# Academic Decathlon

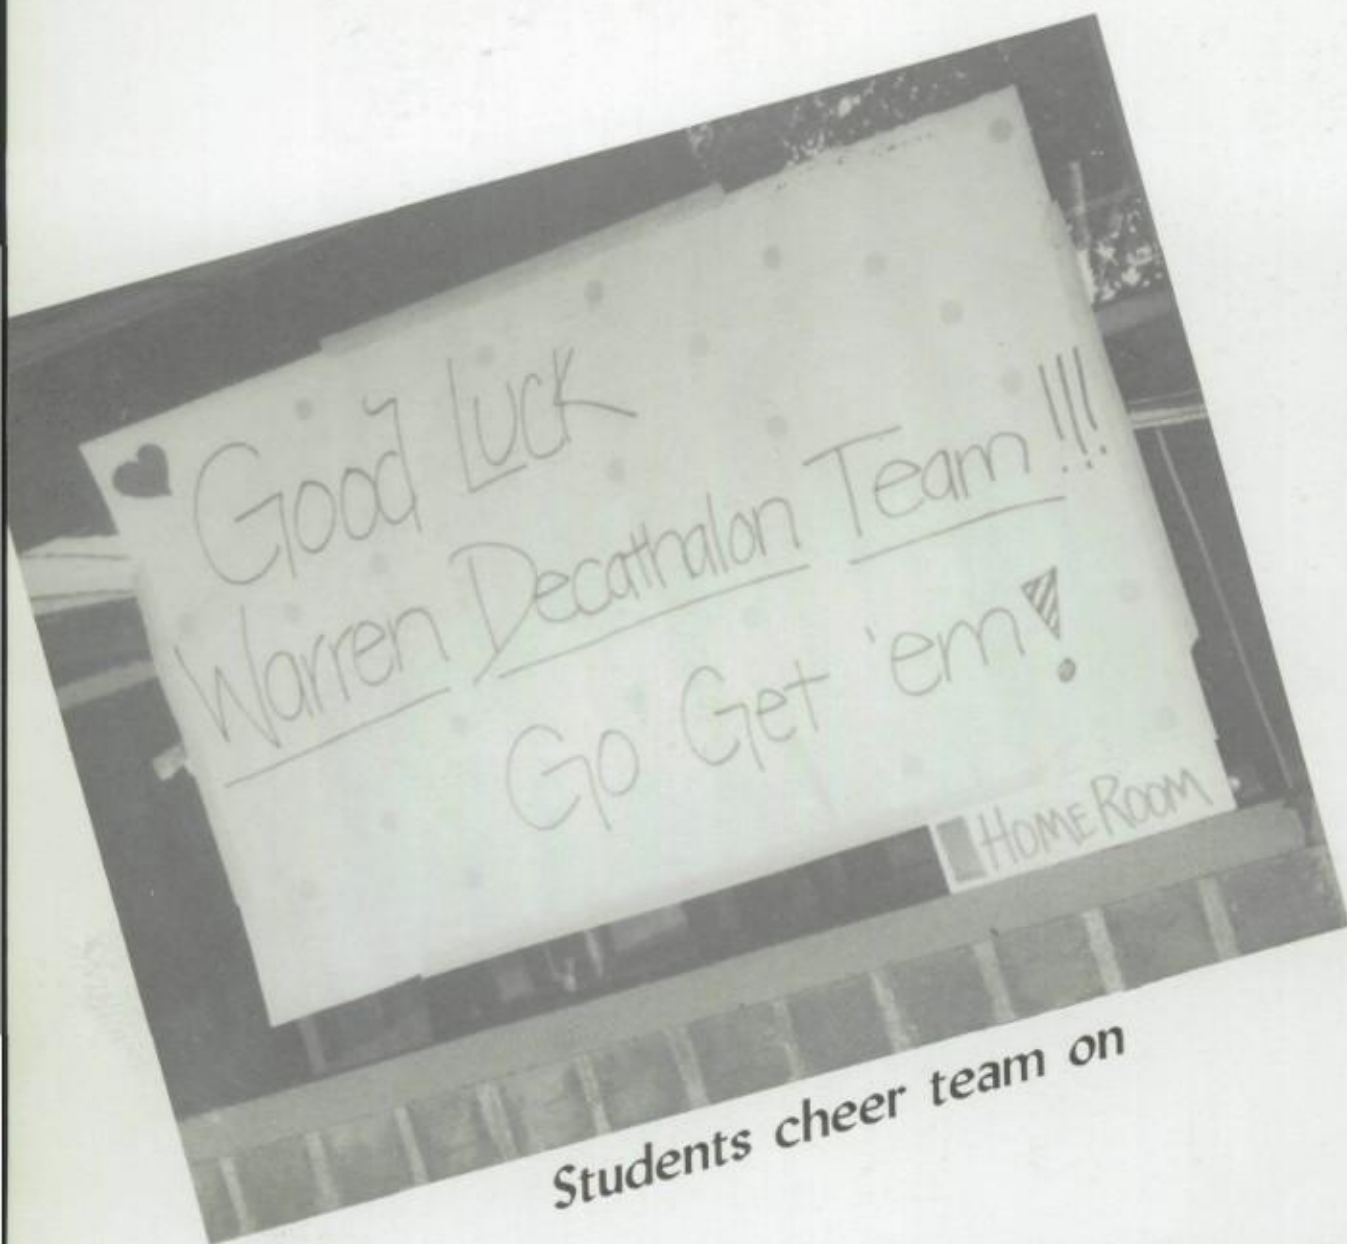

The annual Academic Decathlon (A.D.) was selected to be held at Warren High School. It took place on Saturday, November 17, starting at 7:00 a.m. and ending at 5:00 p.m. Forty-seven schools attended the A.D.

Del Taco sponsored the A.D. with food for everyone. At 8:30 a.m. they gave everyone coffee and cinnamon rolls. For snack at 10:00 a.m. they served fruit and frozen orange juice. By the time lunch arrived at 12:40 p.m. everyone raced to the cafeteria to eat the delicious tacos and burritos that Del Taco had provided. The last break in between testing was at 3:00 p.m. where they served quesadillas and nacho chips.

The students representing Warren High, coached by Mr. Allgood, were: Oliver Ghitea, Randy Hoff, Heidi Klaus, Mike Marlow, Adi Seregi, and Lara Van Rensselaer.

At 5:00 p.m. the A.D. was over, but not for the Bears. They will attend a banquet held Thursday November 29 at the Quiet Cannon Restaurant in Long Beach. They will also attend another banquet on Wednesday, December 12 at Salvatores Restaurant in Downey.

Honors were given to Randy Hoff and Adi Seregi. Scholastics were given to Oliver Ghitea and Heidi Klaus. Varsity went to Mike Marlow and Lara Van Rensselaer.

## ***Santa Claus Hands Out Goodies At Dance***

*This year's Snow Blitz fell on December 14, a Friday night. The dance started at 7:30 and ended at 11:00 p.m. Many of the students wore matching outfits. The boys in a nice pair of pants and most of the girls wore a skirt and sweater or dresses. Pace Studios has taken pictures for Warren High for many years. Warren has been very pleased with the results of the pictures.*

*Warren had a surprise visitor; santa claus it was Bill Nash, Julie Nash's father. Santa went around passing out candy to the students. It was a enjoyable treat.*

*Here are some of the students responses about Snow Blitz. Kevin Carrigan said that he had a great time since all of his friends were there. Donnie Cullen said that he was dissapointed because he was unable to attend the dance because he had a basketball game to play.*

## "Pie Sale Success"

*This year at Warren, Les Devouees had a fund raiser for our school; a pie throwing auction.*

*The president of the club, Chris Barme, went around the school asking teachers if they were willing to have a pie thrown in their face to raise money. The auction was held on the stage during lunch on Wednesday, November 21. The members of the club lined the teachers up on the stage and the students bid to have a pie thrown in the face of the teacher of their choice.*

*The teachers who participated were: Mr. Andrews, Mr. Eichenger, Mary Grassie, Mr. Hale, Miss Ingersol, Mr. Keller, Mrs. Lords, Mrs. Orsinger, Mr. Rice, and Mrs. Shuck.*

*The auction was a huge success. Some of the pies went for \$8 and \$10 and one went for \$15. Mr. Keller got hit the most out of all the teachers. In all, it was one of the best assemblies of the year.*

# Halloween

*This year on Halloween dress-up day there were a lot of creative costumes. Most of the costumes were absolutely adorable, such as: Raggedy Ann and Andy, a tootsie roll, an elephant, gumby, and a butterfly. There weren't too many scary costumes this year. A lot of the guys dressed-up as girls and like every year there were a lot of clowns, hippies, and babies.*

*During lunch the students who dressed-up went up on stage to display their costumes for the other students to judge. The way they judged was by the loudest applause as each participant took a step forward. The prizes given out were a dictionary and a pumpkin to first and second place winners. Robert Wycoff won first prize as a Flasher. Everyone else was given candy for participating.*

*The assembly was really a lot of fun. It was neat to see all of the students dress-up and have lots of school spirit.*

## Mime Entertains Students

Cary Trovanovich, an incredibly hilarious comedian who has performed at comedy clubs, high schools, churches, and on national television, performed at an all school assembly at Warren this year. Cary spoke to the audience about the humorous times he had in high school, and performed hilarious sketches based on embarrassing situations we have all experienced. His popular sketches include "The Date," "The Macho Man," and "The Party" (a laugh at our sophisticated society) which he constructed as a class assignment in high school.

Near the end of his performance, Cary changed the tone of his assembly from comedy to encouragement with a message of self-confidence. By using his own life as an illustration, Cary related how belief in yourself can turn dreams into success.

Cary's subtle humor pregarious personality, and ability to captivate any audience have made him the most popular entertainer for high schools in California. All the students at Warren truly enjoyed his performance.

*On Friday, November 2nd we had our Homecoming assembly after snack out on the football field. Everyone was really enthusiastic and the football players were psyched up for the game that night. Some of the Senior guys were asked to dress-up like girls for the Homecoming court during the assembly. The guys were good sports throughout the whole assembly and a few of them really looked like girls. Also during the assembly, there were class competitions. One of the events was the pyramid. Of course, the Seniors won this event. One of the Seniors, DeAnna Sampson, said that being one of the participants for the pyramid was really fun and exciting. The assembly went very well and the spirit stayed with everyone till the game that night which inspired us to win the most important game of the season . . . the DOWNEY/WARREN game.*

Physical Science Class Toss Eggs

Wow! See how high my egg can really fly?

## Egg Toss

*On January 31, 1985, the Physical Science Class had a final exam, which was to launch an egg 15 feet into the air, and it had to go over the baseball backstop and come down without breaking. Some of the groups were in sets of two, or by themselves, and some of the students even padded their egg to make it less breakable.*

## Second Semester Elections

Elections for the new Student Council were held from the 22 to the 24 of January. During this particular election there seemed to be a lot of students running for office. The elections were held during lunch in the quad. Many of the students showed their school spirit by voting. Many of the students that ran for office made signs, posters, and gave out stickers with a campaign message written on them. We also heard from a few students that were running for office over the announcements. They also talked about how they were going to make changes for the student body to better our school. We can be sure that our new Student Council will do their best for Warren during their term in office.

## ***KROQ Invades***

*KROQ invaded Warren High on Friday night on February 22. The D.J. was Robert Roll. The dance was a big smash! The students danced to the popular music that is played on the radio station KROQ. The dance was held in the gym. Student Council provided the decorations. The gym was decorated in bright colors with balloons and streamers.*

*Students could also get their pictures taken if they wanted to. The school provided the dance with a photographer from Pace Studios. A few students went with dates. The majority of the students went with friends. The dance was semi-casual. Very few of the students were dressed up. Most of the students were wearing pants and sweaters.*

## "Our Hearts Were Young And Gay"

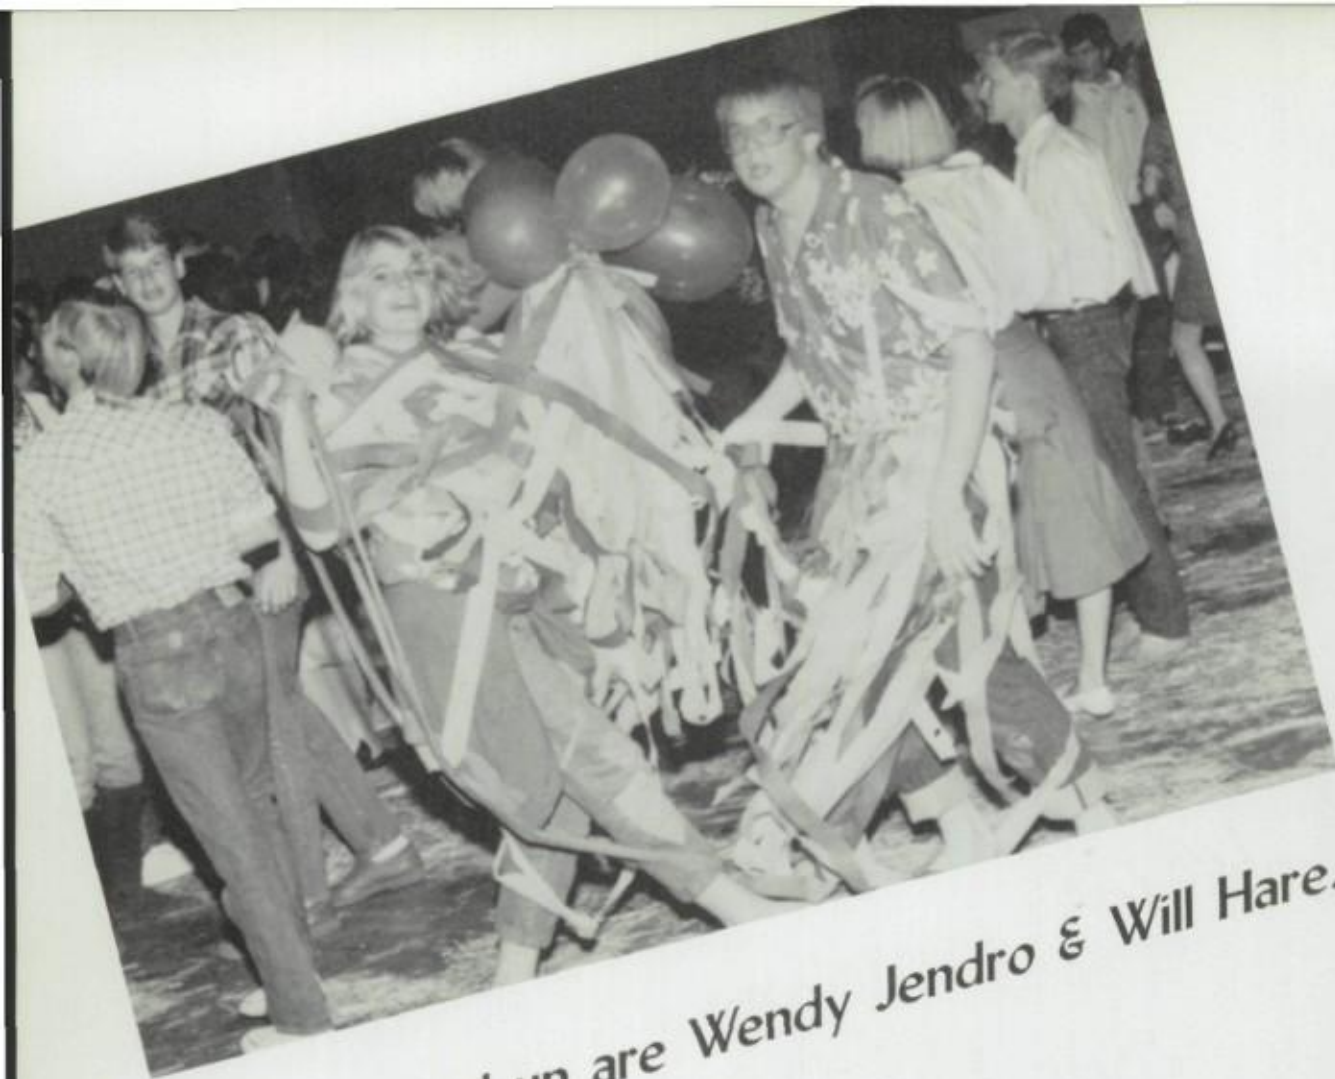

"Forget your troubles, come on Get Happy" was the message the Drama Department conveyed as they stepped back in the "Roaring Twenties" in their production, "Our Hearts Were Young and Gay."

In order for the audience to believe they had actually stepped back in time, the actors had to give extraordinary performances. This task did not seem difficult for any member of the cast. Especially for the actresses that shared the two lead parts. Stacy Lemons and Desi Smith portrayed dramatic, free spirited Cornelia Skinner and the part of her ditz best friend was shared by Natalie Hughes and Nancy Sandoval. Others who shared the spotlight were: Benny Barker, Stacy Jameson, Wendy Douglas, Allen Holland, Ken Mootz, along with many others.

The credit for this extravaganza does not go to the actors alone. A majority goes to director, Mrs. Jacquie Emerson and the members of the backstage crew who provided another hit for the Drama Department.

## Bake Sale Raises Funds

Being in a service club has many responsibilities. In order to be in a service club you have to be very dedicated because it deals with a lot of time and caring. The results are very rewarding though. One of Warren High's girls' service clubs' is Les Fideles. Les Fideles have gone to Hospitals on special occasions such as, Halloween, Valentine's Day, and Easter to bring the children all sorts of goodies. They also sell candy and suckers to raise money for special activities and for the goodies for the children when they visit the Hospitals. Right now Les Fideles are selling Candy Apples which sell very well. They also have participated in the Academic Decathlon being guides and other things along with the other girls' service club Les Dovouees. Les Dovouees have done a lot of fund raisers too like bake sales, pie auctions, and selling candy and suckers. All the girls in these two clubs really enjoy doing and giving their services for people. It gives them a feeling of satisfaction for doing a good thing for someone who needs a brightened day or just a friendly "hello." "Being a member of a service club is very exciting and fun because we get to help out others and help ourselves to grow as better people," quotes DeAnna Sampson, Les Fideles Treasurer. Both of the girls' clubs plan on going to a mission or museum on Catalina Island in June so they are desperately working the fund raisers to get enough money to go. We wish them all the luck!

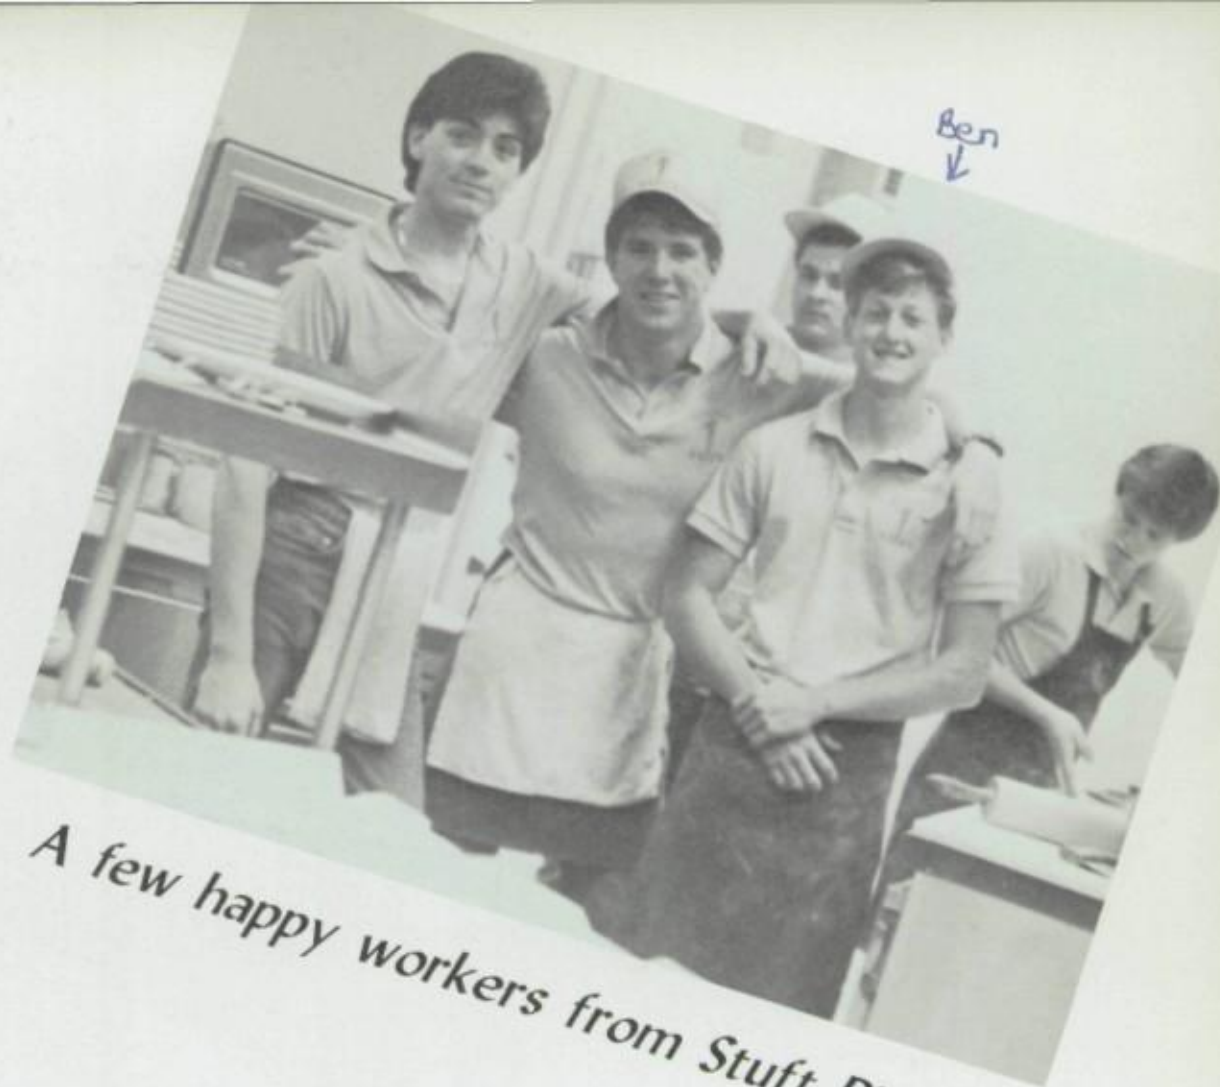

*Lisa DeFabrizio can't resist the temptation of all those sweets.*

*Lori Cluff can't decide which of the baked goods to take.*

*At Pina Pizza, Misty and Laurie Smith take a break from making their pizza to pose for the camera.*

*A few happy workers from Stuft Pizza.*

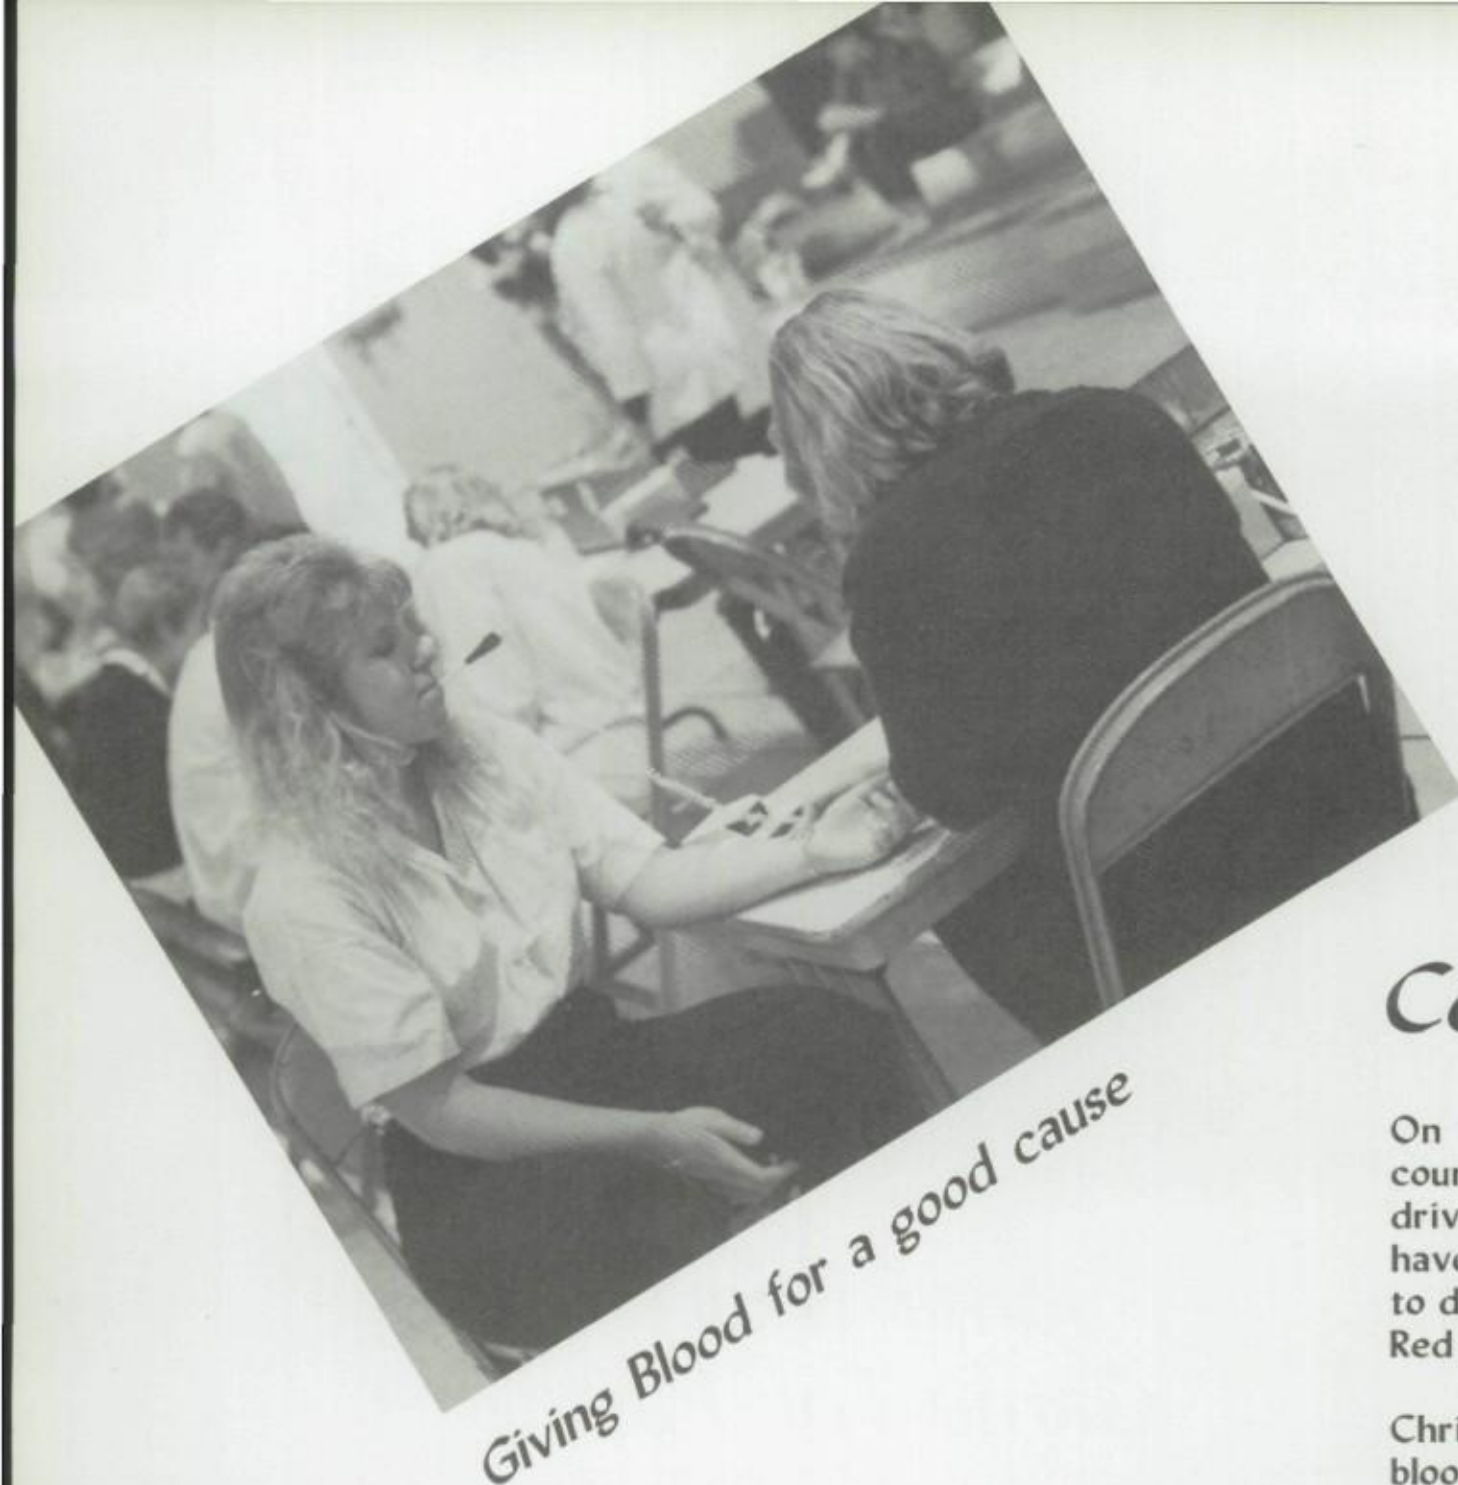

## *Some Bears Game For Pay*

Many students besides going to school from 7:50 a.m. until 2:35 p.m., also have part time jobs. That can become quite a load for some students. The students are still able to maintain a descent grade point average. Many of these students also participate in sports and other clubs at Warren. The students that are pictured on this page work at various Pizza Places, which is located on Firestone. As you can see the job is not all fun it also requires a lot of hard work and long hours. Another thing that makes a job a lot more enjoyable if you have friends that work with you. Having a part-time job also enables the students to meet people outside of school. Most of the money made by these part-time jobs goes for buying new cars, saving up for college, paying for Homecoming and Prom. Yes, and its always nice to have a little extra cash in your pocket.

*Giving Blood for a good cause*

## *Council Collects Blood*

On March 29, 1985, the student council is holding its annual blood drive. Students seventeen or older have been given the opportunity to donate one pint of blood to the Red Cross.

Chris Barme is chairman of the blood drive this year. She and Mary Cockrill, co-chairman, have been planning the drive with Steve Tucker, the Red Cross representative, for over three weeks. "I wanted to be chairman because I think that giving blood is very important," comments Chris.

As always, any student giving blood will receive ten hours of detention taken off their record. Many feel that this is the only reason students give blood. "People should want to give blood," states Mary Cockrill, "they shouldn't give just to get the detention taken off."

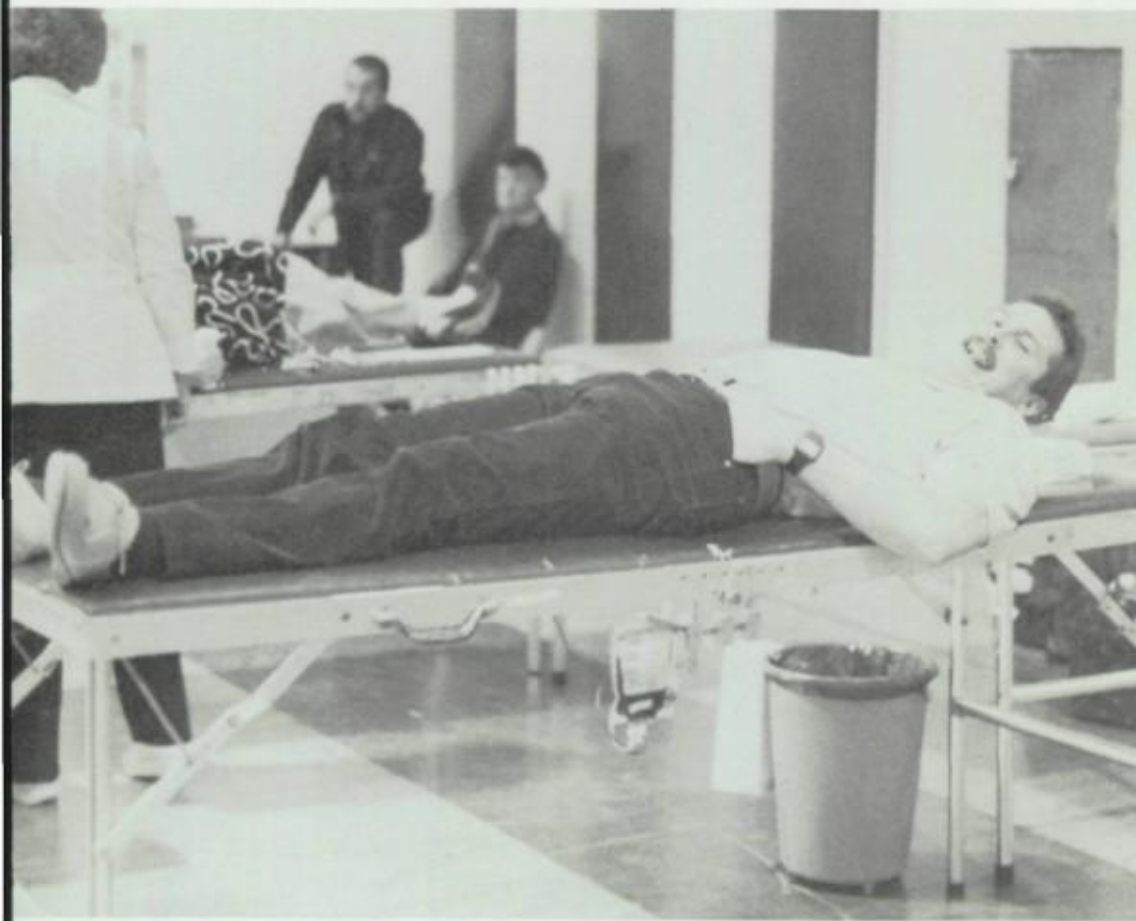

If everyone goes according to schedule, it should take each student about fifteen minutes to give their blood and about twenty minutes to relax and recuperate.

"Blood is life," Chris explains, "maybe by giving your blood you'll be able to save the life of someone you love."

*Mr. Spruston gives blood, and he doesn't even have detention.*

*Mr. Hill had his chance to escape, but decided giving was for a good cause.*

*Coach Carter closes his eyes so he doesn't have to watch the nurse put the needle in his arm.*

*All donors had their blood pressure taken and their blood typed and checked for iron before donations were taken.*

# Clubs

The various clubs that populate the campus of Warren High School are very unique. Most clubs are popular but service clubs seem to be the most dominant these days. Membership in these clubs have increased dramatically over the last few years. Students are more aware of their surroundings and feel that as responsible citizens they should partake in activities which improve the lives of others and the rest of the community. Another popular club is the Computer Club. The increased interest in the club is attributed to the exploding interest in computers. More than ever computers are

invading every aspects of people's lives.

Clubs are a good place for people to meet and become friends. It offers opportunities for students to improve their appreciation for others and learn new skills. Not only do students meet students of Warren High they also get a chance to interact with students of other cities, states, and even other countries. Clubs offer valuable experience in administration and leadership skills. Many students find that clubs are enjoyable and very interesting.

# Student Council Gives Direction

Each new semester students are given the opportunity to serve their school and student body by serving on student council. There are approximately 20 A.S.B. offices and 15 class offices. The Student Council is responsible for the internal goings on of the school. They plan all dances and activities (or the job is delegated to another club).

First semester Student Council, under the leadership of Julie Nash, was very successful in the execution of the Downey/Warren Week. They planned a dress-up day nearly every day and had much participation from all the students. This year they were responsible for bringing a new dimension into the Homecoming Court—a King.

The dance itself was very successful and the students enjoyed themselves. Also the group stressed the importance of a clean campus and prompted many campus clean-up projects.

Second semester Troy Wathen's Administration, had a little more room to do things that had never been done. They were responsible for the first ever KROQ Dance with special guest D.J. Robert Roll. They planned several unique assemblies one of which was a hypnotist show. They helped with the academic decathlon awards and honors banquet. Also they had a SGVL Student Council Conference with guest speakers and a luncheon.

Troy Wathen caught by surprise in heavy thought.

# Class Cabinets Plan Activities

Jorge Lugo (Rep) and Mary Cockrill (Pres) listening to the proposal from Computer Club.

Behind the glamour of being a class president there lies a great deal of responsibility. To help with these duties the president has an elected cabinet, throughout most of the year the cabinets are not widely used, but the senior cabinet is very important. The class officers help plan fund raisers and activities for their own class. The senior cabinet plans prom, graduation, and all senior activities for senior week.

Being on class cabinet is an honor that any student should be proud to have. It says a lot about a person's character if his peers feel that he has enough responsibility to be on Student Council. When applying for jobs or colleges this experience looks very good.

# Mortar & Pestle Yields Formula For Fun

Peter Jong, Charles Park, Maryann Pesci, Janet Moon, Irene Wixtrom, Bonnie Talcott, and Laura Deweese were the seven chemistry students who attended the Science Symposium at the Museum of Science and Industry.

One of the most informational and active service club in Warren High School is the Mortar and Pestle Club. The advisor, who is Mr. Lawrence Rice, is a Chairperson of the science department. The objective of this club is to get a better understanding of the sciences, and the members of this club are lab assistances from the various science departments.

This year the club held a candy sale and raised enough money to sponsor various school activities. Mr. Rice hopes that the continuation of the services sponsored by the Mortar and Pestle Club will broaden students' perspective in the sciences.

# Girls League Offers Activities

Girls League under the direction of Mrs. Caudill, is one of the few clubs having no requirements to be a member. The club is open to any girl who wants to be involved in her school. Some of the things Girls League members did, involved: Discussing fundraisers and sweatshirts, painting trash cans, selling christmas grams, having a gift exchange, and a pizza lunch. Girls League is also incharge of choosing an outstanding senior each month for "girl of the month".

Girls League helped with the teachers' opening day luncheon provided by P.T.A. members.

## Bears Catch Academic Fever

Teachers and Decathlon members share a delicious Salvatore dinner on awards night.

The 1984 Academic Decathlon was a new experience for everyone on the team. We all learned a great deal in the important of preparation and we had a lot of fun. On the day of the event we had ten tests in different categories from math to art. The last event of the day was the Super Quiz in which all 47 schools met in the gym. Each student was given five questions with a total of 30 possible. Oliver Ghitea was among the few who got all five questions right. The man who prepared us for the Decathlon was Mr. Bill Allgood, who dedicated his own time to setting everything up. Many other teachers here at Warren also dedicated their time and help in preparing them in their different subjects. The whole event was a great team effort not only by the contestants, but by the teachers, principal, and all the students in different services clubs who were there to help out that day. Our team did very well on the day of the test, and we placed 7th out of 47 schools in Southern California.

Computer Club was initiated 3 years ago with the help of Mr. John Henning and various other students. When the club was first started it did not have a computer, so the members started fund raisers to get one. How could there be a computer club without a computer. The next year the school put in a computer lab and this helped in giving the club more interest.

The club offers many things, access to the computer lab, member discounts at several computer stores, educational as well as fun fieldtrips, and pizza parties. Also there are guest speakers and projects to do. This helps in teaching and keeping up with all the new advancements in the field of computers. We meet every tuesdays at lunch to discuss fund raisers and plan field trips.

# Art Club Encourages Talent

The Art Club is comprised of students that are interested in making a career of the arts also of those who just like art and appreciate it.

The club plans field trips to art museums, galleries, and The LA. Zoo. The Renaissance Faire and other places where they learn about artists and how to draw.

A trip to the Norton Simon Art Museum in Pasadena was taken in November and Future trips include: An Are Center Coolege Trip LA Zoo trip the annual renaissance faire trip, among other things.

The art club holds candy sales and other money making ventures not only to pay for the trips but to also provide awards at the Annual art exhibit held in the gym on open house night. Another fund raiser is painting christmas windows.

# C.S.F. Students Make Smart Bears

The California Scholarship Federation, a club comprised of selected intelligent students from High Schools, all over California. It is an interesting and beneficial group for the college-bound students. The requirements to become a member in their prestigious club is basically a GPA of 3.6 or better. In some cases, this does not hold true, so one in doubt should contact his/her grade's to a C.S.F. counselor.

The benefits of being a member in C.S.F. are enormous. First of all, the members win the prestige and confidence as an outstanding student. They can also become a Seal Bear of Warren High School by participating in C.S.F. for four semesters in their 10, 11, 12, and 9th grades. The colleges throughout California have respects for this achievement and offer high scholarships for them. Not only C.S.F. is beneficial for your future, it is also fun. There are many field trips that can be planned by students to such places as Hearst Castle in San Simeon or San Diego Zoo.

For any students with the qualifications, I encourage them to join this fun and beneficial club.

# Thespians Make World Their Stage

Thespians, Warren's Drama Club, is one of the most active as well as selective clubs on campus. The members are chosen in part, by their outstanding acting abilities and their willingness to promote theatre as much as possible. Under the supervision of Mrs. Emerson the club participates in many activities such as attending plays, bake sales, candy sales, and even sponsor a trip to New York. So if they seem a little different from other clubs that's because they are constantly trying to show others one of their strong beliefs, that "all the world's a stage".

# Band Marches On

Warren High School, under the direction of Mr. Richard Naylor, has an outstanding music department which consists of the Marching Band, Symphonic Band and Jazz Ensemble.

The Marching Band and Auxiliary Groups-Banner, Tall Flags, Major-ettes, and Drum Major provide entertainment at football games during halftime and pre-game, and also compete in parades and field Show Competitions.

The Banner Squad consists of 7 girls carrying letters spelling the name of the school. They go into competition as an attached unit with the band. Banner has two different types of competition. The first type is parades and field shows. The second type of competition is called squad competition. This includes the banner team only.

Tall Flag squad had competed in 2 field shows. They placed 1st at La Habra and 2nd at Norwalk. They are an independant group.

As majorettes, we enjoy performing at home football games, pep assemblies, field shows, floor competitions, and parades. Being majorettes gives us more experience for performing before a crowd and we hope this experience will help in future years.

The Symphonic Band travels to various Colleges where they compete in Music Festivals, and in the Winter and Spring are in concert at the Downey Theater.

# “Shut Up, And Do The Routine”

It's a hot day in May and twenty nervous girls are standing in front of mirrors slicking their hair back with Dippity Doo getting ready for tryouts. For many the next four hours will decide their fate for the up coming year. If they are to make the squad they have long summer practices beginning at 6:00 am to look forward to, the investment of several hundred dollars and an experience that will be remembered forever.

Pep Squad is a rare thing that the majority of people will not have a chance to experience. This opportunity can only be obtained through hard work and dedication. Very rarely is the work done ever noticed by the student body.

Being a cheerleader is more

than just wearing a short skirt and flirting with the football players. It consists of cheering at games, performing against other schools, and competing — not to mention the fun times helping the Mascots paint signs.

This year's Pep Squad has been one of the best in a long time. The reason for this is that great talent has been exhibited in each individual squad. This year's cheer squad has done a great job. They incorporated twenty-two new cheers into Warren High and were very spirited throughout the year. They have exhibited the true traits of a unified squad. Short Flag is usually a looked at as one of the easier squads to make when in reality its one of the hardest to make. A mistake in a flag routine is very noticeable and

therefore the members have more pressure to do well.

Song has always done exceptionally well at competition. This year they took first at the Arroyo Competition. These routines that they perform are always enjoyable to watch. Being Mascot is a lot different than being on other squads because instead of learning cheers and dances the Bears spend time painting signs to build up spirit. At games they can be seen messing around annoying the cheerleaders and having a great time. Most of the time it gets really hot in the Bear suits but the Mascots don't mind.

Being on Pep Squad has its moments, but in the end it has to be one of the most fun times of our high school days.

# Old Dance Squad Revised, Letterwomen Survive

This year an exciting new drill team was introduced to Warren High.

This Dance Team was, started by Julie Hunt, the team's advisor and has developed from hard work. That work was soon rewarded when the girls competed during the summer at cheer camp where they received a superior rating in the competition.

The Dance Team started out performing during football and basketball halftimes and then went on to compete in drill competitions.

On the whole, the Dance and Drill Team has been loads of fun, backed by the good feelings that come from working with your friends as a team.

The Letterwomen's club consist of girl's who have lettered in various sports offered here at Warren.

Their cabinet president is Mary McQuade and Ingrid Gluck is Vice-president. The rest of the cabinet is Julie Nash, Julie Hammon, and Kathy Ripley.

Letterwomen's has raised money by selling candy apples and having bake sales. They use the money to help fund girl's sports.

Their main goal is to put on a successful Sadie Hawkin's dance.

## Are We Having Fun Yet

Yearbook students Kevin Carrigan, Heather Sneva, Deanna Sampson, and Hyewon Chung learn the fine art of using a pica ruler from Carolyn Raine and Carrie Ochoa.

Informing the student Bears is made possible through the publications at Warren. These are the newspaper, THE JUSTICE and the yearbook, EL OROSO. These two organizations are special because all the labors put in are shown in the end by the product produced. Quite often students complain about the quality of the newspaper and yearbook without knowing the quantity of work and time that goes into it. Very few people would be willing to labor all night so the yearbook would come out on time with exception to the yearbook crazies. Newspaper has its many deadlines that need to be met and classes that are missed because of it also. The best thing about these two groups is the pride each member can take in the end product.

Back Row: Jeffrey Ochoa, Fred Godinez, Eddie Campbell, Denay Bornn, Jim Armstrong, Theresa Barham, Sarah Colnic, Teri Dart, Paul Carbajo, Front Row: Mrs. Kennedy Rice (advisor), Paula White, Abn Pham, Cindy Button, Carlos Godinez, Chris Rubi, Michelle Lugo, Ellen Kirby, Jean Casey, Yvonne Lopez, Nancy Sandoval, Heather Smith.

Key Club is a service organization sponsored by Kwanis International for high school aged young men. Key Club is active in school affairs such as campus renovation, dances, parties, etc. As a matter of fact Key Club has logged 400 hundred hours of service for campus renovation. "It's a lot of work," said President Adi Seregi, "but it's also a lot of fun."

Speaking of fun, the Photo Club manages to combine fun with a great deal of practice at their important task, learning how to capture the moments of a persons life trapped on a single frame of paper and plastic.

# Hard Work & Motivation To Be #1

There are many clubs at Warren that are designed specifically for fun but in addition there are two that have dedicated themselves to service for the school and community. Les Devouees and Les Fideles are these two clubs.

This year Les Devouees has been able to overcome many financial problems by having many unique fund raisers. These included the sale of "gobble grams," a faculty pie action, a faculty dunk tank assembly and many bake sales that often resulted in food fights. To

most people the fact that Les Devouees has a color page doesn't mean much, but to the members it was a hard fight that was worth it. In the area of service, Devouees helped at school activities such as campus beautification projects and the Academic Decathlon.

Les Fideles has also had a very good and prosperous year. This year the club has been able to raise more money than ever before. This can probably be attributed to their new advisor Mrs. O'Neal. Fideles was responsible for "ghoul-o-

grams," a car wash and many candy sales that helped them raise all of their funds. This particular club was a lot more active in community service. They went to Los Amigos to help young children and worked at community events.

Both clubs have been able to serve in different ways in our school and community and both have had a lot of fun during the year. They were able to have parties and activities together that took away some of the competitiveness between the clubs.

# Seniors

We're at the top, we're number one  
85's our year for fun.

We stay out late, up all night  
We're seniors now and it's all right.

We'll all soon go our separate ways,  
But in our hearts the friendship stays.

We've grown so close throughout the years  
And we'll depart with pain and tears.

It's hard to believe we've come so far  
Good times have made us what we are.

Never has there been a class around  
Where so much fun and excitement abound.

We're really close the best of friends  
Good times and love will never end

We'll call a lot and keep in touch  
Remember to write-send cards and such.

By reading these few short lines of rhyme  
We've chance to think back on some excellent times.

Like getting a license and your very first car

Yet staying in Downey, not allowed to go far.

Taking your finals and trying to pass  
Being able to choose your own algebra class.

Going over to McDonald's after the game  
Dressing up for halloween without being ashamed.

Going to a party and being offered a drink  
But too scared to take it-what will they think?

These are the things we'll remember about school  
When we knew everything and were always too cool.

Its time to grow up yet it 's so hard to leave  
We look to the future and see more to achieve

1985 has been such a radical year  
We've had the chance to grow so close and dear.

I love you all, you're the very best  
I pray that our friendships can stand the test.

Although separated by time and often by miles  
We'll think of these memories, always with smiles.

# Tackle'all, Dodge'all, Scam All, All Are Games Bears Play

Bears, or inhabitants of WHS, can be seen playing three games during a typical day in Bearville. The most popular of these games is Tackle'all. This game is a very exhilarating sport which can be played almost anywhere in Bearville. The object is to get to the next class in one piece with all the books and accessories necessary for that class. When the bell for the end of class rings the game starts. Many bears are tackling other bears in front of their lockers. Others are tackling some which insist upon having a chat in the middle of traffice. The reward for completing this game is a comfortable wooden chair to sit on while listening to a very exciting lecture in the next class.

The next game is Dodge'all. This game requires a bit more skill but it is just as fun as Tackle'all. Its object is to dodge all assignments, studying, and listening as is possible. In order to do this, many bears ask to use the "rest-

room", fill out an office summons hoping to be summoned, and others just don't come to class. The reward for this game is the privilege of completing all unfinished work at home.

The last game that is seen in Bearville is a game reserved for the Bearettes. Its name is All Scam. All Scam is a game many Bearettes play. The object of All Scam is to scam on all the guys around. Many Bearettes can be seen coniving or turning on the charm in Bearville. The whole idea of the game is to catch a Bear. Once a Bearette has him its not as fun to play All Scam — a new game starts.

So the three most popular games in Bearville are Tackle'all, Dodge'all and All Scam. Each requires a special talent and each is used to "fill up" a day in Bearville. These games can be very frustrating at times, but keep up the spirit Bears!

## Bowling Bares Self

I have noticed that bowling is becoming more and more popular among Bears. Bowling is very entertaining, exciting, and competitive. It is fun to roll a ball down a lane and watch it smash into the pins. This is only part of what makes it entertaining, though. Bowling is exciting because it isn't very easy to knock down all of the pins with one shot. But when you do, you feel great.

Bowling is a very competitive game. Not only can you compete with your friends, you can compete with yourself. You just bowl one game to warm up and try to match or beat your previous score. One other reason I think bowling is becoming more popular is it is cheap and you can do it whenever you want to, and Bears do.

# Game Attendance Aids Spirit

Going to football games can be a fun "game" for Bears as attendance at games helps keep up the school spirit and it gives the team the will to win. If nobody went to the games, the team would not have any support and nobody to win for. So if you attend the games you accomplish two things, you can keep spirit up while having a good time.

While at the game you would see a lot of your friends there also. I

think its so neat to all sit around at the game and cheer the team on. We are usually the loudest ones in the stands, its great. And a lot of the time, there is an after game dance that is held in our school gym. So, if you do decide to go to the game, you could have a lot of fun.

And, if you don't have all that much fun, it still gives you something to do on a lonely Friday night . . .

## Socializing Common Practice But Some Games Can Hurt

Warren Bears play many games during school time. Socializing is the game they play the most and probably the best. Bears socialize with their friends during lunch, snack and in between classes. At these times the sound of Bears chattering can be heard for blocks away. Bears stand in groups and share their weekends with each other. Girl Bears often socialize by writing letters to each other. Other Bears will try to socialize in class but often get caught. Socializing is the finest and most enjoyed game Bears play.

However, there are certain

games Bears play that can really hurt people. One that is very common is flirtation. Sure everyone does it, but some people take it seriously. Some girls who flirt can not handle being with a guy more than a couple of weeks, so they break it off, usually hurting the guy's feelings. There are other people that are just scared of a relationship and never let themselves to for fear of being hurt. A person should always know and understand someone's feelings, no matter who they are. Games Bears play may be fun to some, but to others it's no fun at all.

# Our Time Has Come

The Class of "85" may be gone but will never be forgotten.

Only memories remain now of the Senior class.

The Class of "85" follows tradition by throwing the caps in the air after finally graduating.

A group of friends take a more serious look at graduation.

# WARREN HIGH SCHOOL SENIOR CLASS 1983

To a Senior the final year at WHS is one that has been looked forward to and dreaded for many years. It is a year that involves a lot of responsibility and maturity. This year calls for life changing decisions involving colleges and vocations. It is an important time for many because there is so much growing up to do in such a short time. There is pressure from parents and peers to be something your not or don't want to be. It is definitely one of the hardest years of your life. At the same time it is by far the best.

The class of '85 is unique because of the unity we share. Our class has always had the most spirit at pep rallies and games. There has been great participa-

tion in activities and events from our class. We have been models for the underclassmen to follow. We know how to have fun anywhere when we are with friends. It is hard to imagine waking up and not having to come to first period and see all the people you've grown to love. It is not easy leaving this place. Before us lies the future which holds new friendships and more good times.

All the things we've strived for or dreamed of are here. It is now time to go on with tears and anticipation using all we've learned and experienced here at Warren. It's not easy, Senior, but it's time.

## Taking The Lighter Side Of Things Darkens Future

Students at WHS who are called Bears like to play games with School life. Bears play games with teachers about tardies and absences. The next day, the Bear pretends not to know anything about the tardy or unexcused absence and tries to argue the worthless issue. Bears come to school to socialize. Forgetting what school is for, some Bears don't do their work in class and come to school to impress others and are not inter-

ested in learning. By wearing the latest fads and talking in the new slang, some Bears seem not to care about how school will help in the future. After coming to school late and in the new fads, students don't always do their homework. When they don't do the homework, school gets tougher and they give up. Not taking school seriously, school becomes a Bear's game instead of a valuable step towards future success.

## Bears Smile, Walk Proud

Bears play many different kinds of games. Bears can play fun games, like dancing, going to the movies, being with friends, and going to parties. These kinds of games are what Bears like most. Bears can also play rough games. Our football team is a good example. Players sometimes get hurt and have to be carried off the field. Bears play happy games most of the

time, however. They carry a smile and walk proud because they're a "Bear."

Sometimes Bears play sad games. They don't like to lose because they have worked really hard to be better than everyone else. I think Bears deserve what they've earned — everything!

## Bear-A-Gram Favorite Pastime

A favorite hobby of all bears is probably sending notes. At least one person out of everybody in the class writes a note to someone else. Usually it is a friendly note addressed to someone they know or want to know better. But sometimes they are notes addressed to the favorite thing of Bears, their honey. This increasingly popular hobby has become a nuisance to teachers, but all the female Bears can't help it, they love it. Now if I

seem biased, just check it out yourself, guys just don't send notes. If they want to talk to their sweet honey they just shout it out. I mean girls love to be secretive about their honey. Also female Bears love to spread the gossip with other freindly female Bears. So teachers, if you happen to spot a note traveling around, don't refrain its path, because you will be stopping and important favorite pastime of the Bear-a-Gram.

## Hobbie Becomes Career Dream

My favorite hobbie is making clothes and sewing. People might think its boring and all, but I really enjoy doing it. I used to think it was boring too, until my 9th grade year when my counselor picked out a sewing class for me. At first I really didn't like it at all. Just thinking about the things that I had to do. Sitting front of the sewing machine wasn't my type of class. I used to think only old people sew to kill the time. But I have to admit that I was wrong. Thanks to my counselor, I have a hobbie

that I enjoy and also my future dream of being a fashion designer. When I sew and struggle with materials sometimes things don't work the way I want it to work, but I don't put it off till later, I try and try until it works. After I finish making an outfit, I try it on right away and show it to my parents. They say they are really proud of me also they give complements. I get a great joy getting complements and wearing the clothes that I made. Sewing certainly has become a great game for this Bear to play.

## Duck Dunking Deserves Praise!

The Warren Bears have received high recognition over the many years that have passed because of their high abilities and their well played games against other schools teams. We were all proud of our football team this year when they won a tough game against the Downey Ducks. For a couple of years in a row, the Downey Ducks beat our Bears at every football game they played. This year though our great team put their forces together and decided they weren't going to take it anymore; so they all went out there proud of representing a

great school and ready to do anything within their power to win the school's recognition back. That night was an exciting night for everybody. Warren students went along to watch and encourage the Bears to win the game against the Ducks. The Ducks had no power against the Bears; they were small and afraid and couldn't resist so they gave up because they knew they had no chance of winning. We all congratulated our winning team the next day. We are, again, proud to leave such a great team representing our school. Keep it up Bears!

## "Fads" Designed To Impress

One of the Bears' favorite games is to try to impress each other with the latest "fads." They hang around in groups all over school. One crowd is called the "heavy metalers." These Bears go around school with tee-shirts printed on. They wear spikes on their belts and wrists and tie bandanas around their ankles up to their knees. Other bears are those called the "mods." They go around driving

scooters and wear suspenders with plain white tee-shirts. The last group of Bears are the "romantics." These guys walk around wearing their pants rolled up half way and hats on their heads just like the men in the band "Roman Holiday" which is where they get their name from. In short, there are many different types of Bears, but they all play the game of "who is better."

## "Follow The Leader" Still Popular

There are quite a few games that Warren Bears like to play. One specific game that is seen within the campus is that of "follow the leader." This occurs, usually, with a pack of four or more Bears headed by a king or queen Bear. Another popular game that Bears like to play is the art of persuasion. Especially with a test in the near future, students favor the postponing of test dates, and one possible way is to persuade the teacher.

some students practice often enough to become a habit. This game is not exactly a game but more of a trick. It's called "how many times I could get away from class with an illness excuse." This particular game could easily be detected due to the fact that the most popular days to get sick are Mondays and Fridays. Many games are practiced by Bears, but these are some common ones that Bears like to play.

# Popularity Game Played To Win

One of our favorite Bear games to play is the infamous popularity game. The players each put on their uniforms, consisting of grossly over-price fluorescent clothing from Contempo Casuals and genuine 9-West from Nordstrom. Next, they pick game pieces. The object of the game is to pick as many game pieces as possible. These notable game pieces will cast the player votes when Homecoming and Prom comes around. The players must be extremely cordial to the pieces and refrain from gossip when the pieces approach. Phony smiles and mean-

ingless conversation must be used at all times. Menial peons of society and people with long hair are considered off-sides. Not dating a football player is a definite foul and drinking and smoking are considered illegal maneuvers and will immediately disqualify players from the game. Pep Squad members and the Key Club Sweetheart get a free throw. All in all, this Bear game is a worthless waste of skill and the player's real ability is needlessly checkmated until they make a goal. Then their game pieces are carelessly cast aside.

## Guy's Compete Off The Field

The guys at Warren play games to compete for the "hottest" girls. After it becomes known that a "hot" girl has just broken up with her boyfriend, all the guys begin a rough competition to win her. They commence this competition by simply talking to her at school or calling her on the phone. Next, they try to act

real cool and try to influence her that he is the most "happening" guy around. Then they ask her out or go to her house continuously until she picks the one person that she likes best. Finally, after all of that combat, the guy who wins, makes sure everyone else knows about it and is totally arrogant for weeks to come.

# Soccer Requires Perfect Bears

Soccer is a game that requires mental as well as physical perfection. In soccer, the player must keep his eyes and mind constantly on the ball. To pass the ball to the best player in the perfect place requires hard mental work. Soccer is much like football; it requires good sense of decision making. The smallest error in soccer could result in a goal on that team that made that error, and that is an expensive price that every soccer player tries to avoid.

Like most games, soccer is a team game. No one man can achieve a goal by himself. That is why understanding and friendship are two important factors that should be found between players in every soccer team. That all runs up to an important conclusion; that soccer requires hard mental thinking as well as physical perfection. After all, it is one of the games that Bears play!

## Basketball More Than Sport

Basketball is one of the most popular sports with the Bears at WHS. Actually, if I didn't play Basketball, I would probably not come to school that much as participating in the sport is my main game here. School just doesn't have the same meaning for me without it. I think that the only thing that keeps some students in school is their ability to play a sport. If I didn't have Basketball, I'd be at home.

Basketball is also a great way to meet friends. I owe a lot to bas-

ketball and the things it has taught me, especially responsibility, dedication, and teamwork. The friends I have made on the team are more than just friends; we share a goal, a goal to be the best at what we do, playing basketball. Although at times tempers got hot and fights were started everyone knew it was just a way of relieving tension. Friendships are important and I know there are nine other guys that feel the same as I do. Basketball is not just a game to play but a game that teaches lessons about life.

# Fall Sports

Bears play a variety of sports during the fall season. Throughout the season, each sport gets the chance to compete against different schools in Southern California. Being an athlete in the Warren High Athletics program takes more than talent, it takes serious discipline and dedication. These athletes devote much school and free time to their sport. The fall bears give up much of their summer to make the teams the best they can. Participating in sports is not only hard work but a lot of fun. After the long hours of practice, many new friends are found among the teams athletes.

The goal for each team is to be League Champions and for its team or

some individuals to make C.I.F. It seems an athletes job is never done. The coaches and trainers contribute a lot to the victories the Bears achieve. These athletes look to their leaders with respect and loyalty. It is often forgotten that the coaches are there as long as the players are willing to contribute. But win or lose Warren High fall athletes pride shows through. Many thanks to the fans who were always full of spirit and enthusiasm and were ready to cheer the bears on to victory. Everyone was proud of the teams this year and we congratulate them on the fine job they did this year in competition and sportsmanship.

## Tackle Tales

With only four returning starters the "'84" Varsity football team knew they would have to work extra hard to report for the great season of a year before. For the "'84" Bears practice began in summer. While most students took three months off for a vacation, the Bears began practice Monday morning at 8:00 a.m. to 10:00 a.m. five days a week and 8 man passing leagues 3 days a week. The Bears were not only faced with playing in one of the toughest leagues in C.I.F. but also having to work with 4 new coaches, Coach Carroll, Coach Nicholls, Coach Fisher, and Coach Wolverton. Although the coaches and players were new to each other they caught on to each others likes and dislikes very quickly. Coach Drake looked toward the 4 returning starters to help with both new players and new coaches. These players were Scott Zowada, all league player in 1983; Dan Pena, also an all league player in 1983; Kevin Miller, running back; and Tim Ferguson, fullback. The Bears opened the preseason with a loss to La Habra and a victory over Pius X. With

these games under their belts they went on to league and opened against cross town rival Downey. The bears went into the game as underdogs and several people doubted their ability to win against a very tough Downey. The Bears made the doubters into believers in

a very exciting win over Downey. Unfortunately for the Bears they dropped 3 games following their victory to Downey. The losses were to Cerritos, Lynwood (the #4 ranked team in California) and Paramount. The Bears did however finish the season on a high note with victories over Gahr and Dominguez. They had an overall record of 4 and 6. Many people

criticized the team without realizing that these players are all winners. The year there were several players that came through when the bears seemed to need it the most. Some of these players are Eric Nelson, Craig Forsyth, Ron Tedford, John Soria, Greg Reynolds, Tim Ferguson, Kevin Miller, Gilbert Buck, and Doug Campbell, although these players didn't always get all the credit they deserved and worked just as hard to win.

# Battling Bears

Coached by new head coach Jack Nicholls and assistant coaches Jeff Welch and Jim Carroll the junior varsity football team ended its season with a win-loss record of 5-5. The team posted wins over a very tough La Habra high, Pius X, cross town rival Downey (due to ineligibility), Gahr and Ceritos. Head coach Jack Nicholls pos-  
 stated that "the team be-  
 came more aggressive and  
 improved execution of  
 their fundamentals tech-  
 niques. They learned to  
 never let up and because  
 of this they came from be-  
 hind to win several  
 games. They improved  
 because of the combined  
 workouts with the older and more ex-  
 periented Varsity squad. The junior  
 varsity wanted to prove to the varsity  
 that they could be successful too. The  
 J.V. season was highlighted by many  
 great performances on offense, Scott  
 Beihn, wide receiver, Mike Norton,  
 runningback, Orlando Jimenez. While  
 on defense Joel Ittner, John Drisner,  
 Brian Fox, and Rick Goldbach held

their opponents from scoring. Even  
 though a few individuals stand out  
 above the rest, they learned to play as  
 a team and shared in the victories as  
 well as the defeats. The whole coach-  
 ing staff would like to congratulate  
 the 84 Junior Varsity football team on  
 a fine season, and look forward to see-  
 ing then become next year's varsity  
 players. At the awards  
 banquet, the most valu-  
 able player was Orlando  
 Jimenez, the Most Valu-  
 able Offensive Player was  
 Glenn Yamasaki, the  
 teams Most Valuable De-  
 fensive Player was Sean  
 Flanders, and the teams  
 award for the Most Inspi-  
 rational went to Joel Ittner. Coach Fi-  
 scher stated that most of the teams  
 our J.V. plays against are combined of  
 mostly juniors, and taking into consid-  
 eration that our team is mainly sopho-  
 mores, they did a very nice job this  
 season.

## Bearly The Beginning

This years frosh football team didn't finish with an outstanding record but our frosh team does promise some fun and winning seasons in the up-coming years. Even though they only had four wins, they won one of the most important games of the season, Downey our cross-town rivals. Our freshmen started out really slow, but in the third quarter, after a long and hard talk from Coach Woverton and Coach Hauk, Warren was ready for some seri-

ous business. They sent Bryan "truck" Brooks through the middle for the only score of the game. Our defense held the Vikes to only a couple of yards. Steve Davis and Ty Moskal made key interceptions to clench the game. A couple of players honored were Steve Davis, MVP, Bob Nagel, MV lineman, Anthony Simmons, MV running back, Joe Felix, coaches choice, and Brian Kerr, MV defensive back.

# Tennis Tops S.G.V.L.

This years Varsity tennis team had a very successful year, the teams amount of experience was a major of the teams great success. The lady bears began the season against a very tough paramount team, the whole team played great and defeated paramount by the score of 10-8. The girls continued to play great all season and went on to become the undefeated league champions. They advanced to the first round of the C.I.F. playoffs, their opponent was Troy high school. The girls went on to defeat Troy high by

the score of. Unfortunately the girls were not so fortunate. The following week, the girls faced a very tough thousand oaks team, although the lose took them out of the playoffs the girls enjoyed a fine season. At their awards banquet Julie Hammon was named as the most valuable player and Sara Bode was named the most improved, other outstanding players were Debby Hammon, Terry Agopian and Mary McQuade. # Spiking For 3rd

The Junior Varsity Volleyball team placed second in a very tough S.G.V.L. The girls prepared for a tough league schedule (including Gahr High School one of the top teams in the country), the Bears opened the league schedule with a win over cross town rival, Downey High School. The girls defeated the Vikings by the score of 15-6, 3-15 and 15-9 (the first to win two games wins the match). With a 2-1 record, the girls were in contention for a league championship but first they would have to defeat a very tough and highly ranked Gahr team. Gahr always has a great team and the girls were hoping to just stay close and per-

haps pull-off a surprise upset. Although the girls played a tough match, the girls from Gahr were just too much. The girls did, however, bounced back after the defeat by winning the next 4 out of 6 games and had an excellent chance to take sole position of second place in the league. Unfortunately, due to a controversial rule banning the play of any sport at Dominguez High, the girls were forced to forfeit the game. The team finished the season with a fine record of 7-5 in league and tied for second place with Dominguez. The girls seemed to have an enjoyable season and can all be congratulated on a great season.

## Volleybear's Bump High

The 1984 Varsity Volleyball team had a very productive year. Though the team didn't win as many games it had hoped for, they did play well. The Varsity team gained six new players as well as a new assistant coach, Bev Lidyoff. Together Coach Stoner and Coach Lidyoff taught the team new strategies, drills and better defense. Tracy Smith and Dana Byal lead the Varsity team.

At the awards banquet Linda Mall received Most

Improved, Julie Nash-Most Inspirational, and Tracy Smith-Most Valuable Player.

The expertise coaching of Mr. Stoner lead the team to two wins and some very exciting games. One truly remarkable game was against our cross town rival, Downey in which the Volleybears whipped the ducks in 2 sets straight. Julie Nash says, "the J.V. team shows excellent potential at the Varsity level in the coming years.

## Record Runners

This Years "84-85" Varsity cross country team fulfilled all of its goals and took with them a proud record of 5-1. The Bears placed second in league and advanced to the first round of the CIF playoffs. Outstanding runners were Dean King, Troy Wathen, Jim Armstrong, Chris Schoch and Tracy Leahy, Dean Kingran a consistant first man with a 15.36 being his best (on a three mile course) Troy Wathen took the second man position running well all season with a 16:06 being his fastest time of all year. In league finals Troy Wathen

was chosen as an all league runner (only the top seven runners make all league). Jim Armstrong and Chris Schoch both ran consistant times all year. The teams most memorable meet of the year was against Gahr High School, the whole team ran well and really seemed to come together as a team. Several people felt that having a new coach would hurt the team, fortunatly, the new coach Bob Cape ajunted well to the runners and as the record shows they produced a fine overall record of 5-1.

## Frosh/Soph Snags 2nd

The 1984-85 Frosh Soph Cross Country Team finished a season, plagued by injured, in second place behind a strong Paramount team.

In Cross Country races are run on a three mile course determined by the home team. The first place finisher earns one point for his team; the second, 2. The first five people for each teams score, but other runners can displace the other team's coring funners. Each team's points are then totaled up, and the lowest score wins. The lowest score possible would be a

fifteen.

The team was led to it's first victory in a tri-meet against Pius X and Lynwood by captain and MVP Rick Buckles and co-captain Robert Sandberg.

The team went on to win the rest of their regular season dual meets except against Paramount and Dominguez. They had had a better record.

Since this year's team was mainly freshman, they are looking forward to a winning season next year.

# Polo Power

The Warren frosh/soph water polo team had a good season all though they lost all three league games, and finally finishing with a win-loss record of 8-8 with top scores Matt Brown and Carl Spilsbury leading the way. M.V.P. Matt Brown will be leaving to go up to Varsity and 3 of their polo players will be leaving. Warren should have a good team in '85-'86.

In their losses to Downey, Matt Brown led the way with 3 goals and Diego Amairilla with 2. Warren was down 7-1 in the second half when they came back to close in to a 10-6 margin, that became the final score.

All season frosh sophers

had to come back. All in all they had a fine season and hope for a better 85/86 polo season.

In their game against Cerritos lead by Matt Brown, Diego Amarilla and Carl Spilsbury Warren came back from an eight point advantage to close in within 2 but thats all they could get losing their first league game.

In a nonleague game against LaSerna, Warren went in with a 4 game losing streak and was hungry for a win. They got by beating LaSerna in sudden death overtime, with Carl Spilsbury scoring the winning goal. On defense were Jeff Ochoa, and Eric Mendoza putting a lot of pressure on their offense.

# Girls Run Wild

Both Varsity and J.V. Varsity teams did a great job this year. There were a few injuries, but the team recovered. We went against a few tough schools such Paramount, Lakewood, and Cerritos. We ended up doing very well by going to C.I.F. at Mt. Sac which was a rough course for most of us. The girls Varsity team consisted of Carrie Edgeworth, Kim Jones, Julie Bradbury, Jamie Tuttle, Erin McCormick, Cindy Sleumer, was the manager

along with Rosana Gibbs, and Laura Brewer was the team captain. The J.V. team also did a great job. They won just about every meet because most schools did not have a J.V. team. The J.V. team was: Laura Brewer, Katrina Brinkman, Denise Curtis, Sheila Holbrook, Melanie March and Claudia Rodas. The MVP's of both teams were Kris Stramler and Shannon Leahy. Good job girls.

bined a certain amount of natural talent with many hours of practice to become the best athlete possible. Congratulations on a fine year. Warren High is proud of each of you as well as the members of your team.

# Underclass

*Freshman, Sophomores, and Juniors are the students that make up the Underclass. Each new class has certain characteristics that sets them apart from the rest. We enjoy our first three years as we await our Senior year.*

*To many of us, our Freshman year is the best. High School is a welcome change. High School is about twice the size of Junior High, but the stories about getting lost are not true. We discover how the teachers expect us to act, which is also a big change from Junior High. The teachers here expect us to act mature and accept responsibility for ourselves. But we also discover that teachers are people too. Many of the students and teachers enjoy getting to know each other. Listening to students week-end plans and a teachers golf game stories are things that can help student-teacher relationships. We meet a variety of people and make many lasting friendships.*

*When we become Sophomores we calm down*

*more and adjust to High School life. Some good things that Sophomores receive are choosing the classes they want and the choice of a locker out of the freshman section. Drivers Education is awaited by all Sophomores, but when we get behind the wheel in the drivers training car, we all experience a feeling of terror. Then we ask ourselves if we can do it and the answer is yes! So we relax and drivers training becomes another fun experience.*

*Our Junior year is one in which we experience more freedom. As we grow older we are trusted more by our parents.*

*We do a lot of growing in our Junior year and things get harder. Our grades are of more importance and we worry about our college plans. Football games, and dances are a way of life for us now, but we will miss them when we are gone. Our Senior year grows closer, but the memories of our underclass years will be just as important to us.*

Bears like to play a physical sport like football. Even though the Bears league record is 1 and 3 the Bears are playing tough games.

Warren High School plays many other sports like basketball, soccer, tennis, golf and water polo. The most popular sport at our school is football.

After the year of sports is up the Bears go back to hunting, catching fish, climbing trees, and any thing else they can do to stay in shape for the next year.

When they are done getting shaped up for the following year, the Bears go into hibernation.

Out of all the activities in Warren High, I think Band is one of the most diciplined. Even though it requires a lot of practice and hard work, a person gets the pride of being in this award - winning group. The Band is one of the few activities that runs all year around.

The Warren Band consists of groups. Each of these groups are called section. A Section is a group of the same instru-

ments. These sections are lead by a section leader. This leader not only helps with playing music, he or she also helps with personal problems a person might have. Other people in other sections will also help. The members of the Warren Band are a family to me.

Our group gets to play at parades and usually we come back with an award. I am proud to be in this award-winning group.

Bears play a lot of sports, but football is the best. The Bears haven't done so well this year, but we still have our pride. We need more team spirit at our school. I always know we will get over this slump we're having and by our senior year of '87 we'll have an excellent team. Actually it will be the football season of '86

and '87.

We are also good in many other sports, such as: wrestling, cross country, and track, volleyball, and baseball. The Bears always produce good teams and athletes. I hope Warren keeps on having winning seasons in all their sports.

Bears play a variety of games. Some are more popular than others, such as basketball, baseball and of course the great game of football. Our team will go all the way in our senior year of '87.

The Bears, of course, have always done good in most sports. However something few people realize is the time, hard work, and dedication athletes give to their

sport. And the only way people can show their appreciation is by showing up at the sporting events and saying something.

And of course there are some games that are played to pass the time away in class. Such as tic-tac-toe or hang-man. Some teachers get very disturbed at this. However a few (such as my second period teacher) allow it to go on.

The students did a good job of papering the school during spirit week.

Well, this bear is one who trips to spend most of his time at the beach. I like taking an effortless ride across the face of a perfectly shaped wave, sometimes thought to be more beautiful and more thrilling than all of the women watching. Yes, this bear's game is the game of surfing. This game of mine has more than just one or two advantages, for

instance: not only do you have control of the greatest natural creation (the ocean), but you have the awesome feeling of gliding over the water, challenging the power of the sea and the creatures in it. Those are a couple of reasons for being a surf bear, not to mention the women, the sand and the sun.

As a sophomore Bear, I play games: What do I do to participate? I run. I run for the Bears cross country and Track Team. I'm one of the best runners on the Bears frosh-soph and JV. team. In every meet that I have run so far I have improved from a time of 20.21, to a time of 17.14. In most of my races, I have placed first. The worst placing I have taken has been third, when I was out

of shape from not running all summer. Now I'm in good shape and I am getting better. In the future, I expect to take league for the frosh-soph and J.V.

In track, I'm a distance runner. I run the mile and the two mile. I expect to be taking first or second in all my track meets and may be I'll go to the league with varsity.

Dana Byal waits for her ship to come in.

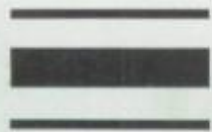

Running down the halls, being late to class, and non-suits are all typical of a sophomore year. But, being a sophomore has its advantages. We are not known as little freshman anymore. The fears of everything from detention and teachers to the seniors are no longer there. We feel more comfortable and show pride in our school. We have become more active and we participate more. Football games, after-game dances, and pep-rallies are all anticipated by the sophomores. - But the most impor-

tant activity for almost every sophomore is Drivers Ed. It is the time we get to bother our parents about taking us on the street to practice our newly learned skills. We also beg for the ultimate Christmas Gift — a car. For some it works out, others wait for next year. By the end of the year we become more confident in ourselves, and begin to realize the meaning of responsibility. The homework and tardies remain but that is part of high school life. Without them high school would not be the same.

My favorite sport or hobby is a very fun hobby. It has been out for a long time. This hobby is called "Breaking". It's fun, exciting, disappointing, challenging and mostly very painful. Most people like to watch this form of dancing. I like to break dance because it keeps me in shape, and it keeps you out of trouble. Its something to do rather than

being out on the streets getting in trouble. Many people "Breakdance," from the age of 3 to 25. Many students at Warren High School "break dance", thanks to Mr. Francis, who lets us "Break dance" in the gym during lunch whenever he's not busy. But the real reason why I "break dance" is because it's fun.

Bears play lots of different games. Different kinds of bears play different kinds of games.

For instance, tall bears like to play basketball, short bears like playing tennis or track, strong bears like to wrestle or play football.

Then there are smart bears who like to play word games and enter spelling contest. The dumb bears like playing tricks on their teachers and playing hookey. Wierd bears like to play with their hair and play wierd music. So you can see, bears play all sorts of different games.

The Bears here at Warren High play many games. We play games such as football, baseball, basketball etc. These games are really fun and challenging but the biggest game of all is the game of life. This game is the most rewarding, and it must be played with skill. There are

many games which help get us through life such as sports. These are fun and help relieve tension. They add to sportsmanship and learning to deal with people. There are many games Bears play, but the biggest is life.

I tell you the games that this bear plays. It's about the most bitchin sport ever invented. The game is called water polo. With the context of tackle football, and the strategy of soccer, all played in a swimming pool. The game can get pretty wild. What's really different about the game is that you can get away with a lot of fouling. The referee can't al-

ways see what's going on under the water. Sometimes you and the opponents can get into some gnarly fights, but most of the time everyone is pretty cool. The best thing about it is that when I play water polo I don't play to win, I do it to play the radest game to come around. Water polo is the game for this bear.

School dances this year have improved. The after game dances have a lot of participation, unlike the ones I went to when I was a freshman. So many people go, that we fill up the whole side of the new gym. The music is great, too. I'm real-

ly glad to see school spirit rising. Last year, I really dreaded waking up and having to come to school, but this year we have a lot of fun. So if you are a freshman this year and you absolutely hate school, just wait, it gets a lot better.

As the youngest bears, we Freshmen are new to the school. At first it seemed difficult to adjust but now I'm sure that we're all doing well. As far as sports go, the competition is plentiful. Practices are long and hard, because if you want to be good, you must work at it. There are many more auxiliaries and all are to be very serious. Warren is among the only schools that have a Banner Squad, and it is doing very well.

During football season, there were a lot of Freshmen struggling through the cheers, but at least we were out there. We started to loosen up and cheer (our newly learned cheers) during the end of the football season.

We Freshman are just getting started and will show our "Bear Pride" up till the last days of school.

Bears play football against other animals. We also play trip the teachers. When the teachers walk by we stick our foot out and they go Boom. When we play football against other animals from other schools we al-

ways win. We're the best, what can we say. We push the players down and we run with the ball. The bears have gotten away with most of their games and we're gonna keep on doing it.

Warren high students show a great deal of spirit when it comes to sports. The students who play sports try their hardest to make their team #1, while the students who watch cheer the team on, letting them know that no matter if

they win or lose, we support them all the way. As Freshman, I think we try to be extra-noisy at football games to get noticed. We usually end up making fools of ourselves but hey, at least we have fun.

Everybody loves sports like football, basketball, water polo and many other fun filled action-packed games. But would this school be anything without their award winning band? This year the band attended every football game this sea-

Games Bears play are football, soccer, baseball, tennis, swimming, basketball, etc.

Warren Bears play with pride and spirit among the school. We also do it for fun and to try to make our team

number one that season.

I play tennis and when I go up to challenge the other schools in a match, I feel really excited about it and try to win for the team. I guess that's what you call a feeling of pride and spirit.

# Spring Sports

"Games Bears Play" when people think of games they may think of Monopoly, Clue, or Trivial Pursuit while others may think of Baseball, Basketball, or Tennis. Just games right, well at least that's what I thought, that was until I came to Warren High School. When I was a freshman I played football and Basketball, my two favorite games. Games that I sometimes took lightly, not concerning myself with winning and losing. I always thought "Ah, it's just a game," oh sure, I felt bad about losing but soon after the game I would act as if it never happened. That's just the way I felt, that was until my first summer football program. I was kind of new to Downey and did not know many people,

so I really did not know what to expect. Well my first day of practice came so I thought it was just going to be one big game, but I was wrong. I remember my first time in the weight room. When I walked in I saw the Varsity football team working out. I was soon to learn that to be an athlete at Warren you did not just play. You played to be a winner and to become the best that you could possibly be. Winning or losing wasn't the only thing an athlete at Warren played for. They played for pride in him or herself and pride in Warren. It meant staying after practice to work-out or to shoot more free throws or even to work on new plays.

Being an athlete at Warren meant

more than just those things but it also meant that you were special. People looked at you as being a role model.

I am a Senior now and have been playing Varsity basketball for two years, something that I consider a great accomplishment. Being an athlete at Warren takes a special kind of person, it taught me responsibility, self-confidence and to take pride in what I do. Playing at Warren isn't all fun and "Games".

The "84-85" Varsity basketball team has been through an up and down season. The Bears began the season confident that a C.I.F. playoff birth was in their grasp. The bears began the season with a 3rd place finish in a very competitive Laguna Beach Tournament, in the tournament the bears defeated such teams as Troy High School, San Clemente and Laguna Beach, the bears only loss came against a very experienced Estancia High. The Bears next challenge came in the Burroughs Tournament, the bears played with the confidence and ability that coach Jay Young knew they were capable of. Our Bears seem to breeze past opponents on their way to becoming the Champions of the Burroughs tournament. After a triple overtime victory over Fontana High School the bears began league competition in perhaps the best 4a

league in California. The San Gabriel Valley League. The bears talk was not an easy one because they would have to face such teams as Highly ranked Dominguez Lywood and cross town rival Downey High. The bears were frustrated all season long. They fell to defeat in several close games such as a double overtime loss to rival Downey high and to Gahr and Cerritos in the closing moments. Although the bears were dissapointed in league competition we proved we were capable of playing and winning against some very tough tough competition. All the players should be congratulated for some great performance team M.V.P. Panch McMichael, Steve Fendry, Steve Ethridge, Donnie Cullen, Jeff Fox, Rob Centeno, Darrin Dominguez, Tom Wite, Dennis Vrooman, Mark Williams, Gerrit Stuber and Mike Baker.

Ty Malone breaks away for an easy lay-up.

Through many long and hard practices, our J.V. basketball team had a very impressive season. Coach Belladella had the team well disciplined and always ready to play. The Bears opened up their season with a fourth place finish in the San Gabriel Tournament. They had a hard working Christmas vacation, as they were entered in two tournaments. After beating La Mirada, Mayfair, and cross-town rival, Downey, the Bears reached the finals; but only to come up short in a tough game against St. John Bosco. The entire Bear team played well throughout the tournament and Mahesh Amanth was selected to the "All-Tournament" team. After Christmas, the Bears traveled to the small town of El Monte, where they earned a 3-1 record, losing to a tough Los Altos team, who later reached the finals. Out of the 16 team tournament, the team finished fifth and team captain Ken Hawthorne was voted to the teams personal "All-tournament" team.

Taking a hard-working preseason record of 8-5 with them into league play, the Bears opened against Downey where they handled the inexperienced Ducks with a crushing 26 points win. They played, perhaps the best game of their year against a very quick and solid Dominguez team. The Bears stayed with them throughout the game before the Dons took a one basket lead with little time left. The Bears, down by two, took a time out and Coach Belladella designed a special play for the "hot shooting" of swingman Ty Manol. With time running out, "T-Bone" hit the jumper and sent the game into overtime, in which the Bears fell short once again.

With the bench support from the "Bad Dits" and the dedication and discipline towards Coach Bob, the Junior Bears had an excellent season. Special thanks should be given to our manager Steve who helped the team a lot throughout the season.

The Sophomore Basketball team this year, is 5-4 in league, and 11-9 overall. The team was coached by Gary Hunter.

The team started pre-season in November, and their last game was against Dominguez on February 15. The team took third place, trailing Lynwood and Dominguez.

The team's captain, Billy Cordero was the team's high scorer and he stated, "The team did alot better than was expected. Coach Hunter really

helped us, he was a cool coach. Even though most of the players didn't have a lot of experience, we did well."

They played on Wednesdays and Fridays at 3:30. The exceptional players were Billy Cordero, Albert Gonzales, and Bill Reavis. The weak point of the team was that there wasn't enough height.

Bill Reavis commented, "We did a lot better in league than people expected us to do."

# Undefeated Champs

The freshman basketball team left no doubt in anyone's mind who was the best freshman basketball team in the S.G.V.L. The "'84-85" freshman team posted a 12-0 league record earning them the league Championship. The young Bears breezed past opponents one by one, a winning attitude and great team work were the two biggest ingredients that lifted the bears above the rest. The freshman didn't have but a couple of outstanding players, they had several. Steve Davis and Darius Turner controlled

the inside game, that was at times unstoppable. The outside was controlled by the players Byron Thompson, Jimmy Kim, and Bob Perumean, other outstanding performers were turned in by Rory Corrigan and Moses Juarez. Coach Carter, in only his second year coaching at Warren, couldn't have done a better job preparing these boys for a very tough league schedule. The Bears hope to continue their winning ways in the upcoming seasons.

# Girls Learn A Hard Lesson

The girls varsity basketball team has had some very disappointing seasons the last three years due to having young inexperienced teams. Each year however, they improve a lot. Entering each season with losing records can bring any teams spirits and confidence down. This years team entered league play with only one pre-season win. Although, they did pull together to win 3 league games. This may not sound

like much but it is the best league record the girls have had in 3 years. The MVP this year was junior Misty Spilotro, one of the top scorers in the SGVL, however all players contributed greatly to the teams success. Coach Dean thinks the future season looks more promising with most of the players returning. There's only one senior on the team this year, and will have a lot more experience.

# High Hopes For Bears

The girl's Junior Varsity basketball team, under the coaching of Ms. Carman, didn't end their season very well. The team worked hard under the leadership of captains Joleyn Miller and Corina Ramos at practices every morning starting at 7:30.

The team consisted of mainly new players, mostly freshman but the team is sure to be stronger next year because of their experience. Before league started the team participated in the J.V. Western Tournament showing

their outstanding skill taught by Coach Carman. The only returning players were Joleyn Miller and Jeanee Soria.

The J.V. Bears lost to Sowney with a score of 18-16. The Bears dominated the Ducks and were ahead in the first quarter, but allowed them to catch up and the score was tied for most of the game. The tie broke in the last minute when one Downey player was fouled and made her two free throws, making the score in Downey's favor 18-16.

# Soccer Gets Socked

Even though our season was nothing to brag about, we were still pleased. This year our soccer team has done better than the last 2 years combined. This year's Varsity team consisted of 2 Seniors, 4 Juniors, 7 sophomores, and 2 Freshman.

Most of the credit goes to our Varsity defense who played tough the whole season and never letting down. This year we had 3 players playing goalie, David Halterman, Leo Panlagua, and Sean Jackson. They all had a good season.

In the first round of games we

were real shaky, but the second round we were a completely different team. We only lost one game.

Our highlight of the season was beating Dominguez 4 to 2, the first time we've ever beaten them.

Next year looks to be promising for us. Next year's team will be basically the same. We should lose only two players, Adi Seregi and Hector Mendez. Looks like the only thing left to say is "look-out cause we're playoff bound."

The J.V. Soccer Team started off their season with a win against Downey. The second game we lost 4-2 to Cerritos. The team fell apart until we played Downey again and tied 1-1. It was a great game and the team's spirit came alive! We played hard and rough the rest of our games. The practices consisted of passing, shooting, and defense. They were long and hard. Practice ended with a scrimmage game against the Varsity team. The team had a fun season. We hope we can do better next year. The team captains were Mark Anderson and Dan Lazar. They were good leaders and very inspirational.

Overall we had one of the strongest soccer teams ever. We hope to have a better and stronger team next year. Coach Laughlin was the best coach we could have and we hope he will coach again next year!

Most of the credit went to the defense who played tough and tried hard. The offense just couldn't get off the ground. The J.V. team will try hard to go all the way next year.

The teams most valuable players were Mark Anderson, Seung Kwak, and Edwin Leon. Overall the team had a fun year!

Our Varsity Wrestling team began the season with a whole new outlook. Mr. Coombs looked forward to his first year as head coach. Coach Coombs first year was not an easy one, several wrestlers were lost as results of grades and injuries. All of the hard work and long practices paid off when our varsity wrestlers won the S.G.V.L. title for the first time in seven years. Coach Coombs was proud of all of his wrestlers. Senior, Pete

Lugo, finished 2nd in C.I.F. and in league. In both competitions he turned in some good matches. Jorge Lugo a junior, took first place in league at 134 lbs. and went on place 5th in C.I.F. Joey Duran finished 2nd in his weight division. Sophomore Mark Velco also finished 2nd in league at 167 lbs. Other great performances were turned by Jim Kindness (Sr.) and Greg Perkins (soph) at 106 lbs.

# Taking The Plunge

Some find it hard to dunk themselves hours upon hours each day into the slime pits that many call a pool-not a swimmer! Swimmers rank among the toughest of the tough. A person who doubts this fact is kindly invited to attempt to complete a vigorous water workout. Workouts are hard and demanding, but the rewards are gratifying. Swimmers tainted with the term "water-wienies" should truly be called the "he-men" of

the water sports!

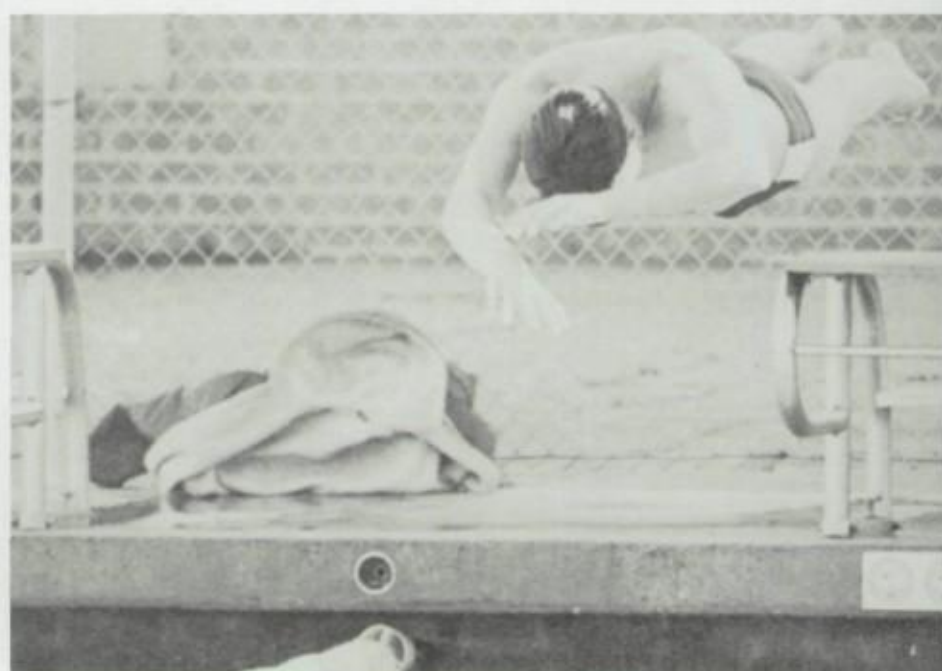

The swim team has had an excellent season with nearly all the swimmers meeting at excelling their set goals. Under the strict supervision of Coach Fraser, swimming techniques are perfected and used with astounding success. The water bears are definitely a threat this year and any year to anyone outstanding in their way. Their goal this league championship!

In their first nonleague meet Warren faced a tough Cal Hi squad in hoping to start out their season in a fashionable way. They did by skimming past Cal Hi by a score of 70-67.

By placing first in the 200 free and 50 butterfly Carl Spilsbury had the way with Joe Marino, Al Babusis and Greg Schwartz turning in fine performance.

The final event that day was the 200 free relay.

With the score 62-61, Warren

favours, Coach Dan Spilsbury out in his lineup consisting of Sean Mc Guire, James Sargent, Greg Schwartz, and Al Babusis. They won against two strong relay teams from Cal High.

Warren knew they had to improve some techniques. With more strong teams ahead, they had to work hard in the weeks to come.

The hard work paid off because Warren met Artesia and easily beat them, 76-62. Again headed by Carl Spilsbury, Joe Marino, Al Babusis and Greg Schwartz the Bears stacked up five first place points and four second place finishes. The bears were off to a 2-0 start.

As a member of the swim team, I feel just that I am part of a team. Helping others to improve or just rooting them on to victory is what is important to us. Being on the swim team takes more than talent it takes motivation. You have to not only have self motivation but be willing to motivate your teammates. Swimming is not supported by many fans so most of the cheering comes from your teammates. The team within it-

self is very spirited everyone cheers each other on from the time they starting gun goes off until they reach the finish. Many friendships are gained on the swim team. When I am worried about my performance at a meet a team member is always there to boost my confidence. When we loose a meet we all share in the hurting and disappointment. And when we win we all share in the feeling of victory.

Swim team is a lot of fun. We practiced everyday, including Fridays, from 6 period to 3:30 after school. We follow a workout that consists of kicking, pulling, and swimming all strokes (back, breaststroke, butterfly, and free). Its great when the sun is shinning but when its cloudy and windy, it gets real uncomfortable. We have meets once or twice a week, on Tuesdays and Thursdays. Meets are a lot of fun. Especially the away meets, because the bus rides are really rowdy. The people

on the team are really great and fun to be with. Its great when your swimming and you hear everyone rooting and cheering you on. And when one wins, we all win. But the most important thing is that it doesn't matter if we win, but that everyone tries their hardest supports each other and has a good time while doing this. So far this season we've won one and lost one league meet. We beat Gahr and lost to Cerritos. Our best J.V. swimmers are Sheri Page and Juli Kim.

# Batter Up

The girls Varsity Softball team is off to a good start this year. The lady Bears beat their cross town rivals Downey High 2 to 0 in their season opener. This years team, with four graduating seniors, shows much promise in making it to the CIF playoffs. The girls practice for two hours every day trying to perfect both their infield and outfield playing. Every game so far has been close with the possibility of either team winning.

Just like any other team, the Bears will need to practice

long and hard in order to reach their goal of a place in the top three teams in league and a trip to the CIF playoffs. The practices each day consist of stretching, warming up, infield/outfield drills, and hitting. The J.V. team practices with Varsity every day until 2:35, then the two go their separate ways. This year the team does not look as is the C Average will effect them as it has in the past. The team has a lot of talent and hopes to prove it in their performances this year.

# Bat-ting To Be #1

The J.V. softball team is working hard this year to get a good place in league. The Bears have the score of 4-2 in practice games. The toughest was against La Serna. The pitcher was very fast and efficient but the Bears managed 15 runs to make the score 15-10. The players this year are Stacie Davis at right field and 3rd, Cynthia Escalante at right and left field, Danna Finley at short stop, Patti Glenn at 3rd, Tammy Goeld as

pitcher, Mindy Junn at 1st, Lisa Lidyoff at 2nd, Frae LaCroix at 2nd, Michelle Lugo at right field, Alane March at 1st, Suzanne Poppin at left field and pitcher Misty Spilotro at center field and Paula White as catcher. The coach this year is Kathy George. She's been working hard to keep the Bears in shape. The Bears practice from 2:35 to 4:30 every day. Let's hope the work pays off.

# Batting A 1.000

The "85" Warren Varsity Baseball team is very optimistic about their season. With returning starters Jeff Farrar (first base) Roger Murphy (catcher), Jorge Lugo (short stop), Andy Ippolito (Left field), Panch McMicheal (pitcher), and Gordon Clemmer, along with new comers Brian White (center field) Ron Veasey (right field) George Young (second base) and Eddie Gonzales (third base). The Bears posted an impressive 6-3 preseason record. The varsity team

opened league play with an eight inning win over cross town rival Downey high. The bears won by the score of 5-4. The bears next opponent was the third ranked team in CIF Certitos High. Always having an outstanding team the bears rose to the occasion and defeated the Dons 5-4. Warren also defeated Lynwood by the score of 4-2. The bears are in contention for a league championship and also a birth in the CIF play-offs.

# Bearing It Out

The J.V. baseball team worked hard throughout the season. Coach Drake always kept them busy with hard strict practices which usually lasted a couple hours. In addition to the hard work during practice, the players strived to win during the games which made this 1985 JV Baseball team so successful. The team worked well together and was always behind each other and you need support from everyone to be good. Coach Drake emphasized this point every chance he could. The JV team should and will be up there for the race for S.G.V.L. champs.

## Hitting Em Hard

The freshmen football team didn't have a spectacular record but did represent Warren well. After a month of hard training, the young vikies for the first league game. Not surprisingly the bears came away with a 6-2 victory. Coach Nicoles had the bears out practicing till 5:30 getting em ready, not just for the ducks, but for everyone else. Even though for coach Nicoles this was his first year of coaching, he coached like he'd been coaching for years.

year to start all over again. But this time they're definitely going to be driving for league champs.

Our freshmen are very talented with Steve Davis (catcher), Jim Kim (first base), Brian Kerr (short stop), Scott Simmons (third base), Rory Carrigan (left field), Garrett Covington (center field), Scott Green (right field) starting and playing almost every game. # Taking It On The Run

This year in track there were many standouts who pulled through in almost all the meets but there was little depth. This season we won our first meet in over a year winning by a single point over Cerritos. This in itself was a great accomplishment. The distance runners and field eventers were our real strength helping to give us a few victories. Our sprinters lacked pigmentation.

Our new Head coach, Bob Cape, strived for more numbers, which resulted in a

larger team from last years. The greater numbers contributed to our victories.

Excellent performances were put in by certain people. Scott Zowada, shot put, and Captain Benny Barker, high jump, our stars in the field events, Kenny (Tree) Green pulled off some victories in the hurdles and sprints.

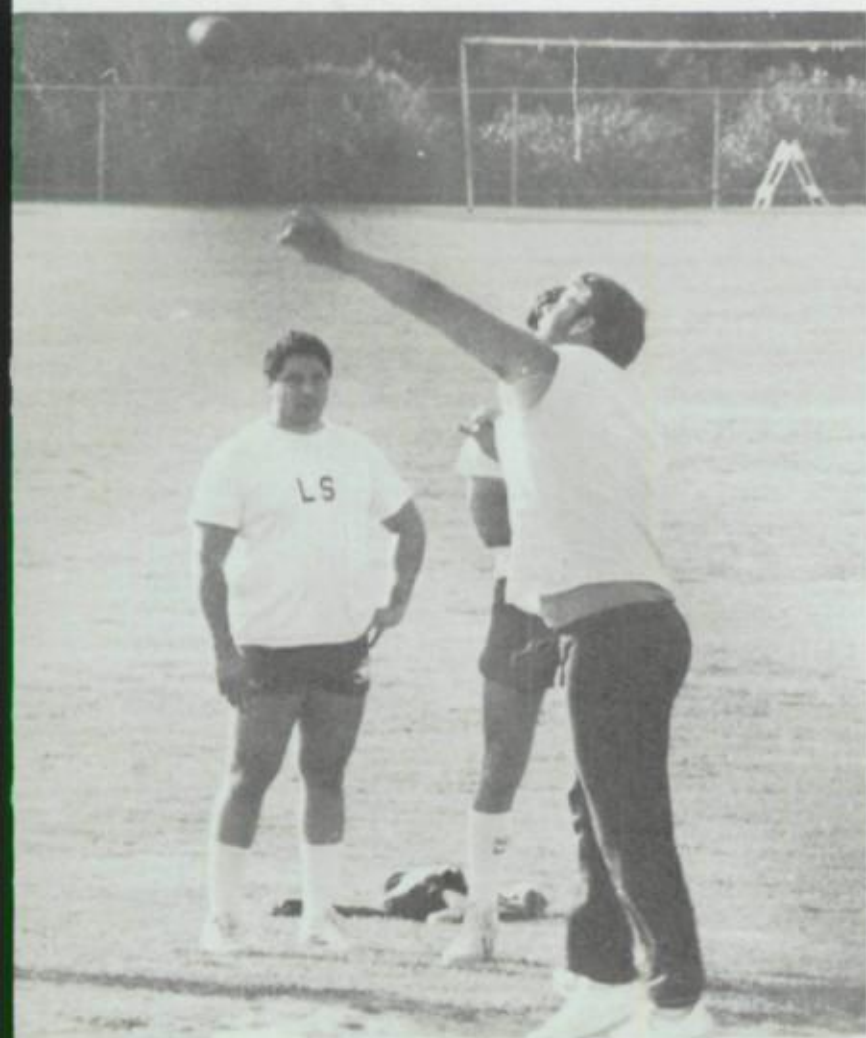

Leading the pack for the distance runners were Troy Wathen in the Half-Mile and Captain Dean King in the mile.

## Making It 'Round The Bend

Track is one of the most vigorous sports in the world. It takes constant training, dedication, and discipline. A typical track practice at Warren High starts with a easy slow  $\frac{1}{2}$  mile, then stretching exercises and finally, training for individual events. Distance Runners run more than 15 miles a week; Sprinters and field eventers work on technique with seemingly endless drills. Although the girls varsity track team has only 25 members, there is alot of talent. Kris Stramler and Carrie Edgeworth dominate the distance and mid-distance events. Junior Kim Jones

dominates the hurdles while Freshman Gina Montion dominates the sprint events. In field events shows Hio Nikki till dominates the high jump while Linda Deasey dominates the shot put.

Week end practice is not required but all the girls try to get in at least one workout. All of the talent effort and dedication makes a great formula for a great team.

# Faculty

The typical day of a Warren High School teacher starts before the sun rises and the birds start to chirp. The night before was a long, hectic one because of five classes of tests and homework to correct in order to avoid the dreaded complaints of students saying, "But, why aren't they corrected? It's your job!" Ready to face the challenges of a new and most certainly a different experience from the day before, they drag themselves out of their beds with the thought: "The show must go on." With fuzzy eyes, they next get themselves together and pick up the clutter of papers on and surrounding their dinning room tables or desks, while at the sametime trying to balance a cup of coffee in their fatigued and writers-cramped fingers. The next task is to conquer the

perils of the shower without slipping, drowning, or falling asleep in the process. Running behind schedule, they next put on their teacher faces and grab a piece of toast and one more cup of coffee for breakfast before running out the door. They next jump in the car with a whirl of flying papers about them, start the engine, and race towards school. When the teachers approach the surrounding streets of Warren, they must be on the defensive because of students who are quite avid at running people off the road. Finally, they pull into the parking lot and hear the passing bell ring; they are late — and so the day begins. When the bell ending 6th period sounds, the lives of teachers are as diversified as all the colors in the world! Some edu-

cators are nature lovers and enjoy camping, hiking and being at one with their creator. Others enjoy being at home and just spending time with their loved ones. Some teachers show companionship, comradery and a killer instinct when they bowl, play cards or compete on the athletic fields. Some teachers are animal lovers and take a great pride in showing their pets in competition. And some teachers like to sit on the beach on a warm breezy day, soak up sun and enjoy the perils, travels or love stories of a new book. Although a lot of students think of teachers just as teachers, this wide spectrum of ways of life should enlighten one to the fact that teachers are people too!

# Bowling Makes Strike

Some of us like Monopoly, others like to play chess, others like to play dominoes, some like to play cards, some like to play various other table games, and some like to engage in sports of one sort or another.

A sport that several of the faculty and staff members at Warren like to engage in is bowling. We bowl on Thursday afternoons in the School Employees League at the Del Rio Lanes in Downey, and the primary objective is to have fun. But when they announce for practice to end and to begin competition, the old warhorse in us begins to churn up the spirit of competition takes over, and we see ten enemies at the end of the alley. We take aim and shoot.

In military terminology, the objective is to neutralize, to eradicate, the enemy. But that is often difficult to do. The ball and the alley — especially the alley conditions — team up with the pins, the shot is erratic — sometimes so erratic that the ball (projectile) goes astray — and the pins are not removed from the field of competition, unfortunately. The other team members then have the opportunity to joke with the erratic shooter, and so on.

—Ron Rothery

## *Dogs Give Championship Competition*

Showing pedigreed dogs at championship dog shows or at lure courses has offered many enjoyable hours of companionship to both Mr. and Mrs. Rice (she's known as Ms. Kennedy here at school) and Mr. Stoner. Not only are the dogs wonderful companions in or out of the show ring, but the three teacher friends have spent many a week-end traveling together to interesting locations in California and elsewhere. Win or lose, the dogs have provided these Bears many opportunities that they may not have had to meet people, to see places and to compete in a world totally different from the classroom.

The breed of dogs owned by the Rices and Stoner, although related, look and behave totally different — both Irish Wolfhounds and Salukis are Sighthounds (they hunt by sight) but the Hounds are the largest of dogs and Salukis are more nearly the smallest of the greyhound like breeds — but each breed suits its owner perfectly.

Mr. Stoner fell in love with the idea of Salukis when he saw a picture of the graceful, cat-like animal in a National Geographic magazine while he was a

teenager. As an artist, the hounds have inspired many of his paintings and drawings and his artwork of the Salukis as well as the Wolfhounds have become a popular item for his fellow dog show exhibitors. He currently has 3 bitches and is showing the youngest with hopes of attaining a championship title soon.

Mrs. Rice saw an Irish Wolfhound when she was just a child at a dog show in Long Beach; from that time on she knew when she could have a dog that a Hound would have to be it. Mr. Rice was not hard to convince. When they decided to get a dog for their sons, she mentioned a Wolfhound as a possibility and the whole family agreed — she finally had her wish granted. Since that day, the Rices have owned a total of 5 Wolfhounds. Their first dog recently passed away at 9 years of age leaving them with 3 bitches. They have shown 3 of their dogs to their championship, 2 to obedience titles and 2 to nearly a lure course championship.

As to how much satisfaction this Bear Game gives? "I simply can't imagine our house without a Hound by the hearth," stated Mrs. Rice.

Mr. Stoner stacks his puppy, Serrah, at the Santa Barbara Kennel Club Show.

Mrs. Rice gaits her 16 month old puppy bitch, Hecate, at the Irish Wolfhound Club of the West Coast Specialty Show. Hecate took 4th place in her class.

Coin collecting is more than just a hobby. It is an art, a social medium, and for some, a way of life. You are going through your pockets or purse, and in the change from the grocery store you find that elusive dime, nickle, or quarter that you have been searching for for the past six months. Meeting new friends at a coin collectors convention, and looking at the rare coins that are too expensive for your budget. And sometimes just sitting down and looking at the you have already gotten a grasp on, this is the life of a coin collector.

A sunny day brings out the book worm in Mr. Keller.

Life in Waldo, Kansas (population 178) was not the most exciting time in my life. Like all dreamers, I knew there must be more out there than wheat fields and dairies.

My world opened up for me when I discovered the excitement and adventure of books. I became an avid reader at a very young age when I discovered that books could become my "magic carpet", carrying me into a world of fantasy. Like Dorothy and Toto, I could find myself in a Land of Oz. I could be anybody I wanted to be, go anywhere my imagination could take me, fight heroic battles and become a early day "Indiana Jones."

I still find books to be an exciting part of my life and an escape from reality. Reading allows me the luxury of going places I have never been, meeting people I might never know, and accomplishing fetes beyond my wildest expectations.

If you have never stood on top of a snow covered mountain and looked down (while on icy wind whistled around your freezing ears) on a "expert" ski slope so steep that it made the hair on the back of your neck stand up — then you have missed a beautiful and rewarding experience at the top of this world. You breathe an air so cold that your lungs hurt at times when you inhale deeply. There is the adrenaline that is flowing through your muscles to let you know that you are alive and ready. There is the sound of your skis working smoothly over the snow under your skis — a sound like no other. A sound produced only when skier, gravity and fresh snow come together harmoniously. Your problems fall away and a smile appears. That's skiing.

The football coaches don't seem extremely happy about the judgement of the referee.

Bridge, to us, is more than just playing cards. It is a game that challenges the players to analyze, to think deductively, to sift out all the evidence, put it together, formulate a theory, and test it out. It creates situations in which the player must consider odds and probabilities as precisely as possible. In addition, Bridge is a chance for competitive people to team up together and beat another team. Bridge, therefore, offers many of the same kinds of challenges that coaching or playing a sport offers.

So the next time you see us at this game, you won't just say, "There's Mr. Allgood and Mr. Young playing cards again." You'll realize instead that we are conscientiously sharpening our skill so that we may be better teachers and coaches.

The field of performing/entertainment provides excitement unknown in any other field of endeavor; the opportunity to express oneself in art, dance, music or literature is provided to the rare few who can adapt to the unknown and unexpected. If you seek security, stability and dependability from your future, then "showbiz" is simply out of the question.

What are the positives? Travel, freedom to create, adulation from the audience. What are the negatives? "Where is the next job?", auditioning, being rejected. Because I chose singing as a career, I was able to see many countries and perform for many people from Greenland to Japan. I wouldn't trade those experiences for the world.

# *Honors*

Many Warren Bears work hard throughout their 4 years to earn more than grades as a reward for their efforts. They compete for Scholarships and other recognitions given by the various departments. Warren has a good record for drawing scholars to appropriate scholarships. Each and every student who is recognized within the following pages should be proud of their accomplishment and pleased with the appreciation of the faculty and students here. This is the game some bears choose to play a game that has rewards beyond the day.

Dawn,  
 Can u believe how fast our freshman year  
 has passed? We're finally graduating from the  
 scum of the school (freshmen) to wise fools (soph-  
 more) yay! But we still have 3 more yrs. 2-go. ☹️  
 Oh well, have a gr-8 summer! And don't get preg-  
 nant too many times (ha, ha) Have a gr-8 one.

# Advertisements

The Business Advertisement section of the Yearbook may not be important to the student in general, but it is a helpful source to the Yearbook every year. The ads help to pay for parts of the Yearbook such as Senior color and helps to cut the cost of the Yearbook for students who purchase it. Many businesses have helped to support the Yearbook by purchasing an ad every year. I would also like to welcome the new businesses that have made 1985 their first year of pur-

chasing an ad. I and the El Oroso staff wish to thank all the Businesses for making 1985 a very rewarding year in Ad sales. I hope the Student body of Warren has helped to make your business a success. I would also like to add a special Thank You to those on the Yearbook Staff who took their own time to get these ads.

Thank You To All,

To my P.E. buddies (Val & Merced): I'll never forget the terrific times we've had these past 2 yrs. & I don't know what I'll do w/out pe. next year. Remember all the times: Agent HCPK, Breck Walls, Jordan Almond, Heather Run, our vb; fb; & bb. teams, UR IN LOVE W/THE GLOVE, stealin' tennis balls, Bella Bottoms, Jackie Boy Jr., Haircut, Lizzy and Lezzy Snail, Mr. Strawberry, the other DD (MD), Merced's wheels, bopper-Lumberjack Ames, Chocker neck, Dave the pimp, ballhogger, Immi-Wham, & all the others. I'll miss these times and I'll remember them 4-ever. I think I'll tell Nikhil and Anais about them.

Well Gotta Go-Go, Luv ya ALOT,  
Anita

Grape-Nuts, We hate to see you leave, but no matter where you go you'll be in our hearts, on our minds, and in our conversations. We will always treasure the moments we've spent with you. We wish you the best always because you deserve it. We are going to miss you.

Tif,

Here's to our friendship! Just think it all started in ROP and Taste Freeze. Remember our boutique with the polo field and male strippers. How 'bout our fashion show, the photographer and the wink. What a ham you were! Pheonix, murder-in-the dark (and the airport) and water fights in *our* room (I still owe you) What about Tonto? Editors of the Pub. Our list, we'll always love them. Max, Italian men (ooh baby) and Tracy-O. The man at 321 ("hut one" the freaks come out at night) Oh and hon-"When you're 50... you can stay out 4:00 am" Commando on Springer St., driving w/o your license... face it we're delinquents! What's the speed limit on Garfield? ... "Tif you can't go out with 4 guys at once" When in trouble just yell s-f-d (it's one word) ... Honk if you love epsilon, "White lines" Stick out your foot the brakes aren't working... Hon, you're the greatest, but I don't have to tell you that. By the way eat, drink, and have fun because tomorrow you'll be at BYU. Guess what-flour doesn't make frosting thicker.

Through the past 4 years our friendship has been all good with little bad!! We've had such times as Dad's apt., Randy Headly, Mr. H's, July 4, Sambi's umbrellas & monkeys, the beach, driving around, the vette, sitting on the hood of the Hauling Honda, Pep Squad, long talks late at nite, threatening to buy "Dristan" for a certain Nose, surfing on ice chests after a mixture of o.j., Balboa Island, having the house to ourselves, the yearly horoscope, the nail painting sessions, the "1st hand knowledge", our trip to Palm Springs, baking for Les Devouees, (good cookies Stacey!), picking up strange women on corners, "Hey how was Prom?" and of course many, many others, Fiesta Platter, eating cookies at the beach, Westwood and more. We've managed to stick together and be there at all times for each other!!

Bestest of Friends Forever!!

Dear Chelle,

I've had a lot of "best friends" in  
my life, but until I met you, I guess  
I never really knew what those  
words meant. I want to thank you  
for all the good times and secrets  
we've had. I'll keep those with me  
until it's time to tell Nickhil &  
Anais about them, and forever  
afterwards. I Love You for the best  
friend you've been to me.

Your best friend 4ever,

# Congratulations to those who participated in "The Games Bears Played"

To the average person passing by the empty fields and dismal beige buildings of Warren High their appears to be no life, but to an alumni or student it is full of memories of good and bad times (But mostly good) It would be impossible for any past student of WHS to just leave the campus without also leaving a part of themselves. So another year is over. For many the future holds new jobs and new schools to the others it means a few more years at Warren. The fact that one is coming back or not is not important, what matters is the memories. When remembering 1985 and "The Games Bears Played" hope you don't remember the detentions, the hard finals, the

stringent grade requirements and the teachers that you hated. Instead remember the great feelings we had at Cerritos J.C. when we defeated Downey in football for the first time in 4 yrs. Trying out for cheer or drill team and making it. Going to homecoming with some guy in your English class and having him spill champagne on your dress and trying to explain to your mom that you didn't have any. Getting the nerve to ask that totally cute football player to Snowblitz and finding out the true meaning of "Dumb Jock." Coming to school to find your locker decorated and balloons and a cake for your birthday from your best friends.

Standing around and talking are a typical lunchtime thing for all, including Benny Barker.

Laurie Buster and Kim Gilman display their ready, cheery smiles.

Dawn, the reason I want to sign your yearbook is to thank you for all of the answers you've given me. Well we have 3 minutes left.

Kami Clark enjoys a luncheon laugh with friends.

Doug Campbell and Jeff Houle notice the camera.

Kristin Robinson seems intently listening to what Sara Gugliossi and Wendy Holiday have to say.

Karen Novorot and Matt Coomes gather beside the stage.

Daria Spotts poses with John Cryder and Matt Coomes.

Doug Miles has books in hand waiting for snack to end.

Terri Agopian seems to be warning Kim Gilman that our photographer is on the prowl.

# We Now Declare The 1984-1985 School Year Closed

Going to the movies and getting kicked out for laughing too loud. Sneaking into the K-ROQ Krash trying not to meet up with any administrators. The fun you had with substitute teachers-switching seats and personalities. Falling asleep in the simulators only to wake-up and find you have killed six people and three cats. These are all memories now. Memories that will be provoked when the pages of this yearbook are turned years from now. It's over and it's impossible to go backwards in time to relive these activities. They were good while they lasted, but now we have more to look forwards.

Micheal W. Smith wrote "Sad Goodbyes, never quite got said. Now the time is gone we're moving on even though it hurts so bad. If I could I'd turn back the days and I'd love again to be your friend in a 100 different ways, but we can't turn back the time- the days." Underclassmen don't let this happen between you and your friends. Enjoy the special times you have now and treasure them forever because after high school they will only be memories in your heart. Seniors go on into the future with all you've learned and look back at Warren with good thoughts and be thankful for all you have received from here. Congratulations Bears. You made through 1985.
